COMPILERS' NOTES

1. The Legislative Appropriation Act approved June 7, 1924, provided:

   "In lieu of the data relating to offices created and omitted and salaries increased and reduced, the statement shall hereafter contain such additional information concerning estimates and appropriations, as the committees may deem necessary."

   Such data had been tabulated in previous volumes of this work for each session of Congress from the Fiftieth to the Sixty-seventh, inclusive, covering the fiscal years 1889 to 1924, inclusive.

2. This compilation contains laws affecting, rescinding, or making appropriations which were enacted during the first session of the 98th Congress with the exception of private relief acts containing appropriations which have been omitted from this compilation. A summary containing the number of the act, the beneficiaries, and the amount appropriated is included.

   There were *twenty-eight* appropriation bills and resolutions acted upon to some extent by the Congress during the first session of the 98th Congress (twenty-three were House bills and five were Senate bills) and *fifteen* of those bills eventually became law (ten regular annual appropriation acts, three supplementals, and two continuing resolutions). *Three* of the thirteen regular annual appropriation bills did not become law: H.R. 3223—Agriculture, Rural Development, and Related Agencies for 1984 did not advance in the legislative process beyond the filing of a conference report in the House; S. 1892—Foreign Assistance and Related Programs Appropriations for 1984 was reported by the Senate Committee on Appropriations but no bill was reported by the House Committee on Appropriations and no further action was taken on the Senate reported bill; and H.R. 4139—Treasury, Postal Service and General Government for 1984 was passed by the House but was not reported by the Senate although the Senate Committee on Appropriations reported a companion bill (S. 1646) to H.R. 3191, the first Treasury, Postal Service and General Government Appropriations Bill for 1984 which failed of passage in the House on June 8, 1983. In addition to the *three* annual appropriation acts that were not enacted into law, *one* supplemental (H.R. 4293) was reported by the House Committee on Appropriations but did not advance further in the legislative process; *one* continuing resolution (H.J. Res. 367) was referred to the House Committee on Foreign Affairs; *another* continuing resolution (H.J. Res. 403) failed of passage in the House on November 8, 1983; and the *one-time* appropriations bill for Water Resource Development (H.R. 3958) was passed by the House and reported by the Senate Committee on Appropriations but no further action was taken. A chronology of all twenty-eight bills is included in table V of this volume (see pp. 1036–1043).

   Financing of programs and activities normally included in the three regular annual appropriation bills that did not become law is provided through two continuing resolutions as follows:

   —Public Law 98–107 for the period October 1–November 10, 1983; and

   —Public Law 98–151 for the period November 11, 1983–September 30, 1984.

   For further information concerning each of the three regular annual appropriation bills that did not become law, see the "note" at the beginning of each of those bills (pp. 89, 211, and 347).

   So-called deferral resolutions for the first session of the 98th Congress are printed in this volume for informational purposes. Section 1013 of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344) provides that resolutions may be introduced in either the House or the Senate to disapprove proposals by the President to defer the obligation of budget authority. Adoption of a resolution by either body mandates obligation of the budget authority in accordance with the applicable appropriating act.

3. This volume also contains various comparative tabulations for the session showing, by fiscal years and in both detailed and summarized form, the Presidential budget estimates (requests) for "appropriations" and certain other types of requests involving the appropriation of obligating and spending authority.

4. While required by the Constitution as a necessary prerequisite to the withdrawal of *any* money from the Treasury, through long usage the term "appropriation" acquired a definite, technical word-of-art meaning in relating to many details and summaries in the annual budget of the President, in the making available of obligational and spending authority, and in tabulations and summarizations

of congressional fiscal actions. If the proposition did not "appropriate" within the concept thus imparted to the term, then it was not added in the "appropriation" totals. If it did so "appropriate", it was added in.

Thus, in congressional tabulations generally, a "reappropriation" (extension) of a balance of a previous appropriation was not added to the "appropriation" totals even though it provided obligational and spending authority beyond what would in its absence have been the case. An "authorization to expend from debt receipts" (sometimes called "public debt borrowing authority") was not counted as an "appropriation" even though it conveyed both authority to obligate and authority to expend. An authorization to enter into contracts in advance of an appropriation ("contract authorization"), being authority to obligate the Government but not to *expend* money, was not added in the general "appropriation" totals. But a subsequent "appropriation to liquidate" that contract authorization—an authority to expend money but not to create additional obligations—was counted as an "appropriation".

Furthermore, historically, prior to fiscal year 1969 the general budgetary and congressional appropriation totals were arranged and presented so as to give greater emphasis and prominence to those dealing with Federal or Federally-owned funds, as distinct from *trust* funds which the Government theoretically holds in a fiduciary capacity. Although prior to fiscal year 1938 (75th Cong., 1st sess.) such trust funds were relatively insignificant in the total appropriations picture they subsequently came to loom large, and while *separately* tabulated and noted in volumes of this work *previous* to the 90th Cong., 2d sess., they were not included in the aggregate totals, of "appropriations" generally emphasized and cited. (See note, table X, in volumes *prior* to the 90th Cong., 2d sess.). But in subsequent volumes, including this volume, they *are* incorporated in general appropriation totals.

Title 31 U.S.C., section 2, dealing with the national budget system, provides that the term "appropriations" includes, in appropriate context "* * * funds and authorizations to create obligations by contract in advance of appropriations, or any other authority making funds available for obligation or expenditure."

Special Note.—A further significant departure in what is now included in several general summary tabulations, which was not so included in these volumes *prior* to the 90th Cong., 2d sess., has to do with obligational or spending authority (including rescissions) conveyed in acts other than the regular annual and supplemental "appropriation" acts. Copies of such acts, and certain specific tabulations related to them, usually appear in one way or another in such prior volumes, but the amounts were not cranked directly into a number of the overall summary tabulations as had been done in volumes beginning with the 90th Cong., 2d sess. This especially affects tables VIII, IX, and X. To retain some consistency of ready identity as between amounts relating to the regular annual and supplemental "appropriation" acts and amounts relating to "appropriations in legislative acts", there is a breakout among these lines in each of these three tables (in some years, the "legislative act" amounts are quite significant, relatively. And sometimes, it is not easy or possible to nail down with absolute precision the amounts involved in the "budget estimates" or the amounts "appropriated"). The total new budget (obligational) authority in these tables are net amounts reflecting rescissions in regular annual and supplemental appropriation acts, rescission acts, and legislative acts.

A new, *unified* budget concept recommended by the President's Commission on Budget Concepts in its report of October 10, 1967, was embraced by the President, and the Budget for 1969 incorporated most of its basic features. The object was to secure usage, as nearly as may be practicable, of a *single* concept of appropriations, receipts, expenditures, lending, and debt in order to promote public and congressional understanding of Federal fiscal and budget actions and matters. The various comparative tabulations and summaries in this volume conform generally to the new concept in respect to "appropriations".

(For a more detailed exposition of the new concept, see the Report of the Commission, especially in relation to "appropriations," pp. 6, 12, 16, 76, 95, and 100; Special Analysis A, the Budget for 1969; and hearings of February 8, 1968, before the Committee on Appropriations, House of Representatives, on the Budget for 1969, p. 40 and following.)

Thus, in lieu of the terms "Estimates" and "Appropriations" used in volumes previous to the 90th Cong., 2d sess., subsequent volumes, including this volume, use the terms "Budget estimates of new (obligational) authority" and "New budget (obligational) authority appropriated." In broad terms, by far the major single difference between aggregate general totals in this volume in contrast to those in volumes previous to the 90th Cong., 2d sess., is the inclusion, in this volume, of *trust* funds (virtually all of which, incidentally, in any session or year, flow automatically from permanent-type enactment of *previous* sessions that thus do not require action in bills of the *current* session). And even under the new concept, in all but a relative handful of instances, the new budget (obligational) authority "requested" and "appropriated" is in the old, conventional "appropriation" form as previously used and understood.

Specifically, "new budget (obligational) authority" is derived by—

Appropriations (as herein above described) excluding appropriations to liquidate contract authorizations; plus
Reappropriations; plus
Contract authorizations; plus
Authorizations to spend from debt receipts.

It must be noted that there are, within the Government, certain inter-fund and intragovernmental payments between accounts that get counted in both places. Principal examples include: Interest on public debt securities held by trust funds; governmental contributions to employee retirement trust funds; and general fund contributions to various insurance programs. And under the new unified concept, certain "proprietary receipts from the public" are offset against budget authority *for budget summary presentation* purposes. This situation can complicate if a simple addition of Federal fund totals and trust fund totals is made without reckoning with this "deduct" problem. [Note.—The aggregate "deduct" figure of $147,621,985,000 for fiscal year 1984 used in several of the summary tables in this volume is the *estimated* amount relating to fiscal 1984 shown on page 9-3 of the Budget for 1984. Being an estimate, the "deduct" figure *is subject to revision* as actual data become available; and an updated amount for fiscal 1984 will appear in the budget for 1985.]

5. The Congressional Budget and Impoundment Control Act of 1974, Public Law 93-344, changed the fiscal year from the July 1—June 30 fiscal year to an October 1—September 30 fiscal year, and provided for the change to take place with the fiscal year beginning October 1, 1976 (Fiscal Year 1977). However, the preceding fiscal year (1976) ran from July 1, 1975 through June 30, 1976, thus providing a three-month interim period (July 1—September 30, 1976) for the necessary transition to the new fiscal year. This volume and the six previous volumes are based upon the October 1—September 30 fiscal year.

Title X (the "Impoundment Control Act of 1974") of the Congressional Budget and Impoundment Control Act of 1974 established new procedures for the reporting and control of impoundment actions of the President. Included in this volume are reports showing the status of rescissions and deferrals for fiscal year 1983 and the first 3 months of fiscal year 1984.

EMERGENCY JOBS APPROPRIATIONS ACT, 1983

Public Law 98–8

98th Congress, H.R. 1718

March 24, 1983

AN ACT

Making appropriations to provide productive employment for hundreds of thousands of jobless Americans, to hasten or initiate Federal projects and construction of lasting value to the Nation and its citizens, and to provide humanitarian assistance to the indigent for fiscal year 1983, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year 1983, and for other purposes in order to increase the wealth of the Nation, putting women and men back to productive work made necessary by the conditions described as follows:

TITLE I—MEETING OUR ECONOMIC PROBLEMS WITH ESSENTIAL AND PRODUCTIVE JOBS

CONGRESSIONAL FINDINGS

It is the sense of the Congress that the continued economic recession has resulted in nearly fourteen million unemployed Americans, including those no longer searching for work, rivaling the actual numbers of unemployed during the Great Depression. Other millions work only part-time due to the lack of full-time gainful employment. The annual cost of unemployment compensation has reached the staggering total of $32,000,000,000. The hardships occasioned by the recession have been much more severe in terms of duration of unemployment and reduced percentage of unemployed receiving jobless benefits than in previous recessions.

Actual filings of business related bankruptcies for the year ending June 30, 1982, reached a total of seventy-seven thousand as compared with a prior year figure of sixty-six thousand. Business failures are up 49 per centum compared to one year ago. Delinquencies are many times greater. The American farmers are more than $215,000,000,000 in debt. Hundreds of thousands of farmers are faced with bankruptcy.

It is essential that interest rates, which have been reduced following a General Accounting Office investigation of the Federal Reserve System at the request of the Committee on Appropriations on April 26, 1982, continue at present or lower rates with due regard for controlling inflation so as not to have an opposite effect of driving interest rates upward for business, industrial and agricultural recovery.

Under these circumstances, the Congress finds that a program to provide for neglected needs of the Nation which results in productive jobs, and to provide humanitarian assistance to the indigent and homeless, to be very strongly in the national interest.

REDUCING AND STABILIZING INTEREST RATES

It is the sense of the Congress that the Board of Governors of the Federal Reserve and the Federal Open Market Committee with due regard for controlling inflation so as not to have an opposite effect of driving interest rates upward should continue such actions as are necessary to achieve and maintain a level of interest rates low enough to generate significant economic growth and thereby reduce the current intolerable level of unemployment as they have since the Committee on Appropriations on April 26, 1982 obtained an investigation of the Federal Reserve System by the General Accounting Office.

MAINTAINING AND PROTECTING PUBLIC INVESTMENT FEDERAL BUILDINGS

In order to assist in reducing the backlog of needed maintenance and repair of Federal buildings across the Nation, $125,000,000 for payment to the "Federal Buildings Fund", General Services Administration, to remain available until expended, which shall be available under the subactivity "Alterations and repairs" for projects which do not require prospectuses.

The local board shall consist, to the extent practicable, of representatives of the same organizations as the national board except that the mayor or appropriate head of government will replace the Federal Emergency Management Agency member.

The Director of the Federal Emergency Management Agency shall award a grant for $50,000,000 to the national board within thirty days after enactment of this Act for the purpose of providing emergency food and shelter to needy individuals through private voluntary organizations.

Eligible private voluntary organizations should be nonprofit, have a voluntary board, have an accounting system, and practice nondiscrimination.

Participation in the program should be based upon a private voluntary organization's ability to deliver emergency food and shelter to needy individuals and such other factors as are determined by the local boards.

Total administrative costs shall not exceed 2 per centum of the total appropriation.

As authorized by the Charter of the Commodity Credit Corporation, the Corporation shall process and distribute surplus food owned or to be purchased by the Corporation under the food distribution and emergency shelter program in cooperation with the Federal Emergency Management Agency.

There is hereby appropriated $50,000,000 to the Federal Emergency Management Agency to carry out an emergency food and shelter program. Notwithstanding any other provision of this Act or any other law, such amount shall be made available under the terms and conditions of the following paragraphs: $50,000,000

The Director of the Federal Emergency Management Agency in consultation with the Director of the Office of Community Services, Department of Health and Human Services shall, within thirty days of the enactment of this Act, make grants totaling $50,000,000 to States (as defined in section 673(4) of Public Law 97-35) for the purposes of carrying out a program of shelter and food distribution within the States. The Director of the Federal Emergency Management Agency shall make grants to States in amounts based upon the procedure established for determining allotments to States in section 674 of Public Law 97-35 except that the Director of the Federal Emergency Management Agency shall disregard subsection (B) of section 674(a)(1).

No part of the appropriation provided herein shall be expended for the administrative costs of the Federal Emergency Management Agency or any other Federal agency. Administrative costs shall be limited to 2 per centum of the total appropriation: *Provided,* That, the States shall use such funds to supplement and coordinate efforts to supply food and shelter by organizations such as the United Way agencies, the Salvation Army chapters, community action agencies, church organizations, and other voluntary groups and organizations.

Sec. 101. (a)(1) Notwithstanding any other provision of law, 75 per centum of the funds appropriated or otherwise made available in this title for each account listed in subsection (a)(5) shall be made available for projects and activities in civil jurisdictions with high unemployment, or in labor surplus areas, or in political units or in pockets of poverty that are currently or should meet the criteria to be eligible under the Urban Development Action Grant program administered by the Department of Housing and Urban Development.

(2) For purposes of this subsection, a "civil jurisdiction" is—

(A) a city of 50,000 or more population on the basis of the most recently available Bureau of the Census estimates; or

(E) a county equivalent which is a town in the State of Massachusetts, Rhode Island, and Connecticut.

(3) For purposes of this subsection, a "civil jurisdiction with a high level of unemployment" is a civil jurisdiction that has been so classified by the Assistant Secretary for Employment and Training, United States Department of Labor. The Assistant Secretary shall classify a civil jurisdiction as having high unemployment whenever, as determined by the Bureau of Labor Statistics using the latest comparable data available from Departmental, State or local sources, the civil jurisdiction has had an average unadjusted unemployment rate over the previous twelve months of not less than ninety percent of the unadjusted average unemployment rate for all States during the same period. The Assistant Secretary, upon petition submitted by the appropriate State agency, may classify a civil jurisdiction as having high unemployment whenever the civil jurisdiction has experienced or is about to experience a sudden economic dislocation resulting in job loss that is significant both in terms of the number of jobs eliminated and the effect upon the employment rate of the area. The Assistant Secretary shall publish a list of civil jurisdictions with high unemployment, together with geographic descriptions thereof, as soon as practicable, but not later than 30 days after the date of enactment of this Act. This list shall be updated on a monthly basis thereafter, by adding civil jurisdictions that the Assistant Secretary of Labor deems to meet the above criteria.

(4) In classifying civil jurisdictions with high unemployment, the Assistant Secretary, in order to include those individuals actually unemployed, should consider modification of the criteria which counts as fully employed persons who worked at all as paid employees in their own business, profession or farm, or who worked fifteen hours or more in an enterprise operated by a member of the family.

(5) The provisions of this subsection shall apply only to funds appropriated or otherwise made available in this title to:

GSA—Repairing Federal Buildings;

Provided, That Corps of Engineers funds shall also be subject to the provisions of this subsection to the extent practicable.

(6) For projects encompassing a civil jurisdiction with high unemployment, labor surplus areas, or political units or pockets of poverty that are currently or should meet the criteria to be eligible under the Urban Development Action Grant program administered by the Department of Housing and Urban Development, as defined in subsections (a)(1), (a)(2), and (a)(3), and a noneligible area, such project shall be eligible for funds under this subsection.

(b)(1) Nothwithstanding any other provision of law, and subject to the provisions of subsection (b)(5), the head of each Federal agency to which funds are appropriated or otherwise made available under this title, with respect to any program distributed according to a formula grant by State, shall allot the funds as follows:

(A) One-third of such sums for each such program shall be allotted among the States on the basis of the relative number of unemployed individuals who reside in each State as compared to the total number of unemployed individuals in all of the States.

(B) One-sixth of such sums for each program shall be allotted among "long-term unemployment States", to be allotted among "long-term unemployment States" on the basis of the relative number of unemployed individuals who reside in each "long-term unemployment State" as compared to the total number of unemployed individuals in all "long-term unemployment States".

(C) One-half of such sums for each such program shall be allocated among the States on the basis of the provisions of law authorizing each such program.

(2) States receiving allotment of funds under this subsection shall to the extent practicable utilize such funds in areas of the State where unemployment is highest and has been high for the longest period of time and for authorized purposes which have the greatest immediate employment impact.

(3) For purposes of this subsection:

(A) The term "State" means each of the several States, the District of Columbia, and the Commonwealth of Puerto Rico.

(B) The number of unemployed individuals who reside in each State, as well as the total number of unemployed individuals in all of the States, shall be determined by the Bureau of Labor Statistics of the Department of Labor for the month of January 1983.

(C) The term "long-term unemployment State" means any State in which the average unadjusted unemployment rate was equal to or above the unemployment rate of 9.4 percent for the period of June 1982, through November 1982.

(4) Notwithstanding any other provision of law, and subject to the provisions of subsection (b)(5), the head of each Federal agency to which funds are appropriated or otherwise made available under this title, with respect to any program distributed according to a formula grant to political subdivisions of the States, shall allot the funds or other authority provided by this title first, among the States in the manner specified in section (b)(1) and second, among the political subdivisions of that State, to the extent practicable under subsection (b)(2), in accordance with the allocation factors contained in the provision of law authorizing each such program.

(5) The provisions of subsection (b)(1) or (b)(4), as the case may be, of this subsection shall apply to funds appropriated, or otherwise made available, under this title to—

Community Development Grants;
Social Services Block Grants;
Community Services Block Grant;
Library Services and Construction Act;

(c) The head of each Federal agency to which funds are appropriated or otherwise made available under this title, or States, or political subdivisions of States, which receive allotment of funds under this title shall to the extent practicable utilize such funds in a manner which maximizes immediate creation of new employment opportunities to individuals who were unemployed at least fifteen of the twenty-six weeks immediately preceding the date of enactment of this Act. It is the intent of the Congress that funds appropriated or otherwise made available under this title be obligated and disbursed as rapidly as possible so as to quickly assist the unemployed and the needy as well as minimize future year budgetary outlays.

(d) Funds or authority to be made available for projects and activities in civil jurisdictions or States with high unemployment, labor surplus areas, or political units or pockets of poverty that are currently or should meet the criteria to be eligible under the Urban Development Action Grant program administered by the Department of Housing and Urban Development, or to State or sub-State jurisdictions, in accordance with this section, but which cannot be rapidly or efficiently utilized shall be identified in a report transmitted to Congress by the Office of Management and Budget not later than thirty days following enactment of this Act. Not later than ten days following transmittal of such report, such funds shall be reallocated on the basis of the provisions of law authorizing each such program.

(e) Notwithstanding any other provision of law, the head of each Federal agency to which appropriations are made under this title, with respect to project grants or project contracts in this section, shall expedite final approval of projects in areas of high unemployment, labor surplus areas, or in political units or in pockets of poverty that are currently or should meet the criteria to be eligible under the Urban Development Action Grant program administered by the Department of Housing and Urban Development in order to allocate sums as required by this section. Nothing required by this section shall impede the rapid expenditure of funds under this section.

(f) Notwithstanding any other provisions of law, any agency rulemaking proceeding conducted in order to implement the provisions of this title shall be conducted expeditiously, and in no case shall an agency hearing on the record be required.

GENERAL PROVISIONS

The Secretary of the Interior is hereby authorized to engage in a feasibility study for the Prairie Bend unit, Pick-Sloan Missouri River Basin program, located in Dawson, Buffalo, and Hall Counties in Nebraska for irrigation, stabilization of ground-water levels, enhancement of water quality, small community and rural domestic water supplies, management of fish and wildlife habitat, public outdoor recreation, flood control, and other purposes determined to be appropriate. Such feasibility study shall include a detailed report on any effects the proposed project may have on wildlife habitat, including habitat of the sandhill crane and the endangered whooping crane. Such feasibility study shall also develop alternative water management plans that are consistent with the Endangered Species Act and the Migratory Bird Treaty Act. Before funds are expended for the feasibility study, the State of Nebraska, or other non-Federal entity, shall agree to participate in the study and to share in the cost of the study. The non-Federal share of the costs may be partly or wholly in the form of services directly related to the conduct of the study.

In accordance with the repayment contract for the Dallas Creek participating project of the Upper Colorado River storage project, entered into January 14, 1977, and entitled "Repayment Contract Between the United States of America and the Tri-County Water Conservancy District", the portion of the costs of such project, including interest on construction costs, allocated to municipal and industrial use which exceeds $38,000,000 shall not be reimbursable.

To provide adequate access to the McGee Creek recreation areas, Wildlife Management Area, and Natural Scenic Recreation Area for use and enjoyment by the general public of those facilities, the Secretary of the Interior is authorized to secure right-of-way, design and construct or otherwise improve two existing county access roads (1) westside road beginning at the existing county road extending from Oklahoma State Highway 3 near the community of Lane, Oklahoma, and extending adjacent to the McGee Creek Reservoir and terminating at the existing county road extending from Oklahoma State Highway 43 in the vicinity of Stringtown, Oklahoma, a distance of some 19 miles; (2) eastside road beginning at State Highways 3 and 7 near Center Point, Oklahoma, and extending northward to the upper end of McGee Creek Reservoir, a distance of some 11 miles. The westside road will be constructed with a 24-foot berm and 20-foot paved surface and the east side constructed with a 28-foot berm and 24-foot paved surface. Both roads will have a minimum 6-inch gravel base and be paved with all weather asphaltic surface. The cost for the facilities authorized by this Act shall be nonreimbursable.

The Secretary of the Interior is authorized, when he deems it appropriate, to defer over the remaining term of any repayment contract or for a period of five years, whichever is less, the 1983 water service and repayment contract obligations for capital and operation and maintenance costs associated with federally constructed or federally assisted projects to reflect the percentage of acreage removed from cultivation pursuant to the "Special program for Corn, Grain, Sorghum, Upland Cotton, and Rice" under title 7 of the Code of Federal Regulations part 770, and any regulations supplementary thereto or amendatory thereof. Such deferment of payments shall not be deemed a "supplemental or additional benefit" within the meaning of section 203(a)(2) of the Reclamation Reform Act of 1982.

The Secretary of the Interior is hereby authorized to engage in feasibility studies of the following proposals:

(1) Pilot Butte powerplant, Riverton unit, located in Fremont County, Wyoming;

(2) Siletz River Basin project, located in Lincoln and Polk Counties, Oregon;

(3) Water conservation and efficient use program, All-American Canal relocation project, located in Imperial County, California; and

(4) Gibson Dam powerplant, located on the Sun River in Lewis and Clark Counties, Montana.

ADMINISTRATIVE PROVISIONS

The Secretary shall appoint a Commission to review the Department's coal leasing procedures to ensure receipt of fair market value within 30 days after enactment of this Act, and said Commission shall make its recommendations within 6 months after enactment of this Act.

No funds provided in this or any other Act to agencies funded by the Interior and Related Agencies Appropriation Act, 1983 (Public Law 97-394) may be expended to take actions related to termination of programs or closure of facilities proposed to be terminated or closed in the budget for fiscal year 1984 until enactment of the Interior and Related Agencies Appropriation Act, 1984 or through approved reprogramming procedures.

In order to further the purposes of the Delaware Water Gap National Recreation Area, and to provide for the public safety of the visitors to the recreation area and the citizens of the States of New Jersey and Pennsylvania:

(1) Highway 209, as a federally owned road within the boundaries of the recreation area, is hereby closed to all commercial vehicular traffic upon enactment of this law, except for those commercial vehicular operations which are based within the recreation area, or which have business facilities in Monroe and Pike Counties, Pennsylvania, operating, on the date of enactment, commercial vehicular traffic originating or terminating outside the recreation area, and except for those commercial vehicular operations which are necessary to provide services to businesses and persons located within or contiguous to the boundaries of the recreation area.

(2) The Secretary of the Interior is authorized and directed, notwithstanding any other law, to establish a commercial operation fee for the use, in accordance with subsection (1), of highway 209 for all commercial vehicles, except for commercial vehicular operations serving businesses or persons located in or contiguous to the boundaries of the recreation area: *Provided,* That the fee schedule may not exceed $10 per trip: *Provided further,* That all fees received shall be set aside in a special account and are available, without further appropriation, for the management, operation, construction, and maintenance of highway 209 within the boundaries of the recreation area.

(3) The provisions of subsection (1) of this section shall terminate on December 31, 1983. The provisions of subsection (2) of this section shall terminate three years from the enactment of this section unless construction of the I-287 bypass in New Jersey or any other feasible, suitable alternative has been commenced. In the event construction has been commenced subsection (2) of this section will terminate ten years from the enactment of this section, or when

construction of I-287 or any other feasible, suitable alternative is completed, which ever occurs first.

(4) Notwithstanding any other provision of law, procedural or substantive, 100 per centum Federal highway trust funds moneys are hereby allocated as part of the State's allocation, and are immediately available for obligation to the State of New Jersey for the construction of the I-287 bypass in New Jersey or any other feasible, suitable alternative, such appropriation as may be made available by Congress from general appropriations to cover 100 per centum of the cost of the I-287 bypass or the alternative route.

The Congress finds that the Forest Service's proposal of March 15, 1983, to consider six million acres of the national forest for possible sale has met with considerable opposition; and the national forests are an important part of the national heritage of the United States; and the national forests provide and protect important resources; and the national forests provide unique opportunities for recreation; and it is inconsistent with past management practices to dispose of large portions of our national forests. It is, therefore, the sense of the Congress that it is not in the national interest to grant the authority to sell significant acreage of the national forest until such time as the Forest Service specifically identifies the tracts which are no longer needed by the Federal Government; inventories the tracts as to their public benefit value; provides opportunities for public review and discussion of the tracts; and completes all necessary environmental assessments of such sales.

98th Congress, H.R. 3223

[NOTE.—The following bill is a copy of H.R. 3223 as agreed to by the House and Senate conferees. The conference report (House Report No. 98-450) was filed in the House of Representatives on October 27, 1983, but did not advance in the legislative process. Budget authority for programs and activities normally included in this bill has been provided in two sequential continuing resolutions—Public Law 98-107 and Public Law 98-151. The first continuing resolution, Public Law 98-107, provided funding at the House-passed rate, with certain exceptions. Sec. 101(d) of Public Law 98-151, the second continuing resolution, provided "such sums as may be necessary for programs, projects, or activities provided for in the Agriculture, Rural Development and Related Agencies Appropriation Act, 1984 (H.R. 3223), to the extent and in the manner provided for in the conference report and joint explanatory statement of the Committee of Conference (House Report Number 98-450), filed in the House of Representatives on October 27, 1983, as if such Act had been enacted into law." (See pp. 504-505, this volume, for text of Sec. 101(b) of Public Law 98-107 and p. 521 for text of Sec. 101(d) of Public Law 98-151; and pp. 1090-1095 for the related table VIII showing estimates and funding levels by appropriation account).]

TITLE III—GENERAL PROVISIONS

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive Order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretaries of the Interior and Agriculture for use for any sale hereafter made of unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States which will be exported from the United States, or which will be used as a substitute for timber from private lands which is exported by the purchaser: *Provided*, That this limitation shall not apply to specific quantities of grades and species of timber which said Secretaries determine are surplus to domestic lumber and plywood manufacturing needs.

SEC. 303. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by noncompetitive bidding on publicly owned lands within the boundaries of the Shawnee

National Forest, Illinois: *Provided,* That nothing herein is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.

SEC. 304. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. 305. No funds appropriated by this Act shall be available for the implementation or enforcement of any rule or regulation of the United States Fish and Wildlife Service, Department of the Interior, requiring the use of steel shot in connection with the hunting of waterfowl in any State of the United States unless the appropriate State regulatory authority approves such implementation and enforcement.

SEC. 306. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 307. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency.

SEC. 308. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 5(d)(1) of Public Law 96-312, and except for land in the State of Alaska, and lands in the national forest system released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, and except to carry out the obligations and responsibilities of the Secretary of the Interior under section 17(k)(1) (A) and (B) of the Mineral Leasing Act of 1920 (30 U.S.C. 226), none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas or within Bureau of Land Management wilderness study areas: *Provided,* That nothing in this section shall prohibit the expenditure of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning, within any lands designated by Congress as wilderness study areas, or Bureau of Land Management wilderness study areas, under valid existing rights, or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: *Provided further,* That funds provided in this Act may be used by the Secretary of Agriculture in any area of National Forest lands or the Secretary of the Interior to issue under their existing authority in any area of National Forest or public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seismic surveys, and core sampling conducted by helicopter or other means not requiring construction of roads or improvement of existing roads or ways, for the purpose of gathering information about and inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment: *Provided further*, That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting, in conjunction with the Secretary of Energy, the national laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys; geochemical techniques including stream sediment reconnaissance and X-ray diffraction analysis; land satellites; or any other methods he deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by him to be qualified to engage in such activities whenever he has determined that such contracts would decrease Federal expenditures and would produce comparable or superior results: *Provided further*, That in carrying out any such inventory or surveys, where National Forest System lands are involved, the Secretary of the Interior shall consult with the Secretary of Agriculture concerning any activities affecting surface resources: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to issue oil and gas leases for the subsurface of national forest or public land wilderness areas, or any lands designated by Congress as wilderness study areas, that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness or other nonsurface disturbing methods.

SEC. 309. None of the funds provided in this Act shall be used to evaluate, consider, process or award oil, gas or geothermal leases on Federal lands in the Mount Baker-Snoqualmie National Forest, State of Washington, within the hydrographic boundaries of the Cedar River municipal watershed upstream of river mile 21.6, the Green River municipal watershed upstream of river mile 61.0, the North Fork of the Tolt River proposed municipal watershed upstream of river mile 11.7 and the South Fork Tolt River municipal watershed upstream of river mile 8.4.

SEC. 310. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless such assessments and the basis therefor are presented to the Committees on Appropriations and are approved by such committees.

SEC. 311. Employment funded by this Act shall not be subject to any personnel ceiling or other personnel restriction for permanent or other than permanent employment except as provided by law.

SEC. 312. Funds provided for land acquisition in this Act may not be used to acquire lands for more than the approved appraised value (as addressed in section 301(3) of Public Law 91-646) except for condemnations and declarations of taking, without the written approval of the Committees on Appropriations.

SEC. 313. Notwithstanding any other provisions of law, the Secretary of the Smithsonian Institution, the Secretary of the Interior and Secretary of Agriculture are authorized to enter into contracts with State and local governmental entities, including local fire districts, for procurement of services in the presuppression, detection, and suppression of fires on any units within their jurisdiction. In addition, any contracts or agreements with the jurisdiction for fire management services listed above which are previously executed shall remain valid.

SEC. 314. Except as expressly provided for by law, none of the funds appropriated by this Act shall be obligated to dispose, except by exchange, of any Federal land tract until such time as the agency responsible for administering the disposal of the tract has specifically identified the tract as no longer being needed by the Federal Government; inventoried the tract as to its public benefit values; provided opportunity for public review and discussion of the tract proposed for disposal; and provided 30 days advance notice of the tract proposed for disposal and of the plans for carrying out such disposal to the congressional delegation of the State or States in which the tract proposed for sale is located and to the appropriate congressional committees for immediate printing in the Congressional Record: *Provided*, That neither the Act of July 31, 1958, as amended (72 Stat. 438, as amended; 7 U.S.C. 1012a; 16 U.S.C. 478a) nor the Act of June 14, 1926, as amended (49 U.S.C. 869 et seq.) shall be subject to the provisions of this section.

SEC. 315. No part of any appropriation contained in, or funds made available by this Act, shall be available for any agency to pay to the Administrator of the General Services Administration a rate per square foot for rental of space and services (established pursuant to section 210(j) of the Federal Property and Administrative Services Act of 1949, as amended) which is in excess of 14 per centum higher than the rate per square foot established for space and services by the General Services Administration for the fiscal year 1982.

SEC. 316. The Congress finds that the Forest Service's proposal of March 15, 1983, to consider six million acres of the national forest for possible sale has met with considerable opposition; and the national forests are an important part of the national heritage of the United States; and the national forests provide and protect important resources; and the national forests provide unique opportunities for recreation; and it is inconsistent with past management practices to dispose of large portions of our national forests. It is, therefore, the sense of the Congress that it is not in the national interest to grant the authority to sell significant acreage of the national forest until such time as the Forest Service specifically identifies the tracts which are no longer needed by the Federal Government; inventories the tracts as to their public benefit value; provides opportunities for public review and discussion of the tracts; and completes all necessary environmental assessments of such sales.

SEC. 317. Notwithstanding any other provision of law, the Secretary of the Interior is authorized and shall seek to acquire the private lands described in section 505(a) of the Act of November 10, 1978 (92 Stat. 3467), by crediting a surplus property account, to be established in the name of each landowner, in the amount of the acquisition price for such landowner's lands. The National Park Service shall update the existing appraisals for the parcels and, based on the approved appraised values, shall negotiate with the landowners for acquisition prices. Each owner may, using such credits in his surplus property account, bid, as any other bidder for surplus property, wherever located, in accordance with the Federal Property and Administrative Services Act of 1949. The Administrator of the General Services Administration shall establish each landowner's surplus property account and shall adjust the credits in such accounts to reflect successful bids under this section. Title to the lands described in this section shall pass to the Government at the time of establishment of the surplus property accounts. The credits in any of the surplus property accounts may be transferred or sold in whole or in part at any time by the landowner to any other party, thereby vesting such party with all the rights of the landowner, and after such transfer, the landowner shall notify the Administrator of the transfer. At any time the Secretary may purchase the balance of any surplus property account subject to the availability of appropriated funds.

SEC. 318. Notwithstanding any other provision of law, the Secretary of the Interior (hereinafter in this Act referred to as the "Secretary") is hereby authorized to convey to Mitchell School District in Scotts Bluff County, Nebraska, all right, title, and interest, except as provided herein, to a tract of land consisting of 20 acres, more or less, more particularly described as the west half southwest quarter northwest quarter section 17, township 23 north, range 55 west, sixth principal meridian. Conveyance of such right, title, and interest shall be upon the condition that the Mitchell School District shall simultaneously convey without cost, an easement right on certain of the above-described lands to the Pathfinder Irrigation District for the purpose of operating and maintaining irrigation canals, laterals, or drains-related storage works of the North Platte project, a Federal reclamation project. The Mitchell School District shall pay the fair market value of the lands as of the date of the conveyance, including administrative costs, as determined by the Secretary. In determining the fair market value of the lands, the Secretary shall recognize the existence of the easement right to be granted to the Pathfinder Irrigation District and shall not include the value of any improvements made on or to the lands by the Mitchell School District or its predecessors. Withdrawals from the public domain as they pertain only to the lands described in this paragraph under Secretarial Orders of February 11, 1903, and July 24, 1917, for purposes of the North Platte project, are revoked by conveyance of the rights, title, and interests as set forth in this paragraph.

SEC. 319. Section 3 of Public Law 96-315 is hereby amended by adding the following new subsection:

"(f) Up to 15 additional permits shall be granted to those persons meeting any one of the following conditions:

(1) A resident as of July 1, 1982, who held a valid Fish and Wildlife Service access permit for improved property owners at any time during the period from July 29, 1976, through December 31, 1979.

(2) Anyone in continuous residency since 1976 residing in the area bounded on the north by the refuge boundary and on the south by a straight line passing through a point on the east-west prolongation of the centerline of Albacore Street, Whaleshead Club Subdivision, Currituck County, North Carolina.

(3) Any permanent full-time resident as of April 1, 1983, not otherwise eligible who can substantiate to the Secretary of the Interior that access is essential to their maintaining a livelihood.".

SEC. 321. (a) The Congress finds that—

(1) in this Nation there exist millions of handicapped people with severe physical impairments including partial paralysis, limb amputation, chronic heart condition, emphysema, arthritis, rheumatism, and other debilitating conditions which greatly limit their personal mobility;

(2) these people reside in each of the several States and have need and reason to travel from one State to another for business and recreational purposes;

(3) each State maintains the right to establish and enforce its own code of regulations regarding the appropriate use of motor vehicles operating within its jurisdiction;

(4) within a given State handicapped individuals are oftentimes granted special parking privileges to help offset the limitations imposed by their physical impairment;

(5) these special parking privileges vary from State to State as do the methods and means of identifying vehicles used by disabled individuals, all of which serve to impede both the enforcement of special parking privileges and the handicapped individual's freedom to properly utilize such privileges;

(6) there are many efforts currently underway to help alleviate these problems through public awareness and administrative change as encouraged by concerned individuals and national associations directly involved in matters relating to the issue of special parking privileges for disabled individuals; and

(7) despite these efforts the fact remains that many States may need to give the matter legislative consideration to ensure a proper resolution of this issue, especially as it relates to law enforcement and placard responsibility.

(b) The Congress encourages each of the several States working through the National Governors Conference to—

(1) adopt the International Symbol of Access as the only recognized and adopted symbol to be used to identify vehicles carrying those citizens with acknowledged physical impairments;

(2) grant to vehicles displaying this symbol the special parking privileges which a State may provide; and

(3) permit the International Symbol of Access to appear either on a specialized license plate, or on a specialized placard placed in the vehicles so as to be clearly visible through the front windshield, or on both such places.

(c) It is the sense of the Congress that agreements of reciprocity relating to the special parking privileges granted handicapped individuals should be developed and entered into by and between the several States so as to—

(1) facilitate the free and unencumbered use between the several States, of the special parking privileges afforded those people with acknowledged handicapped conditions, without regard to the State of residence of the handicapped person utilizing such privilege;

(2) improve the ease of law enforcement in each State of its special parking privileges and to facilitate the handling of violators; and

(3) ensure that motor vehicles carrying individuals with acknowledged handicapped conditions be given fair and predictable treatment throughout the Nation.

(d) As used in this section the term "State" means the several States and the District of Columbia.

(e) The Secretary of Transportation shall provide a copy of this section to the Governor of each State and the Mayor of the District of Columbia.

SEC. 322. Notwithstanding any other provision of law, the limitation on total obligations for Federal-aid highways and highway safety construction programs for fiscal year 1984 contained in title I of this Act shall be reduced by $80,000,000.

[1]*—$80,000,000 (limitation on obligations —reduction)*

SEC. 323. None of the funds appropriated by this Act or any other Act may be obligated or expended before October 15, 1983—

(1) to adopt, to issue, or to carry out a final rule or regulation, a final revision, addition, or amendment to regulations, or a final statement of policy based on any proposed rule, or regulation, any proposed revision, addition, or amendment to regulations, or any proposed statement of policy of which a notice was published in parts III–VI of the Federal Register on March 30, 1983 (48 F.R. 13,342 to 13,381) or in parts III through VI of the Federal Register on July 14, 1983 (48 F.R. 32,275 to 32,312); or

"(3) Assistance payments may be made only for (A) a family determined to be a very low-income family at the time it initially receives assistance, or (B) a family previously assisted under this Act. In selecting families to be assisted, preference shall be given to families which, at the time they are seeking assistance, occupy substandard housing, are involuntarily displaced, or are paying more than 50 per centum of family income for rent.

"(4) The Secretary shall use substantially all of the authority to enter into contracts under this subsection to make assistance payments for families residing in dwellings to be rehabilitated with assistance under section 17 and for families displaced as a result of rental housing development assisted under such section or as a result of activities assisted under section 533 of the Housing Act of 1949.

"(5) If a family vacates a dwelling unit before the expiration of a lease term, no assistance payment may be made with respect to the unit after the month during which the unit was vacated.

"(6) A contract with a public housing agency for annual contributions under this subsection shall be for an initial term of sixty months. The Secretary shall require (with respect to any unit) that (A) the public housing agency inspect the unit before any assistance payment may be made to determine that it meets housing quality standards for decent, safe, and sanitary housing established by the Secretary for the purpose of this section, and (B) the public housing agency make annual or more frequent inspections during the contract term. No assistance payment may be made for a dwelling unit which fails to meet such quality standards, unless any such failure is promptly corrected by the owner and the correction verified by the public housing agency.

"(7)(A) The amount of assistance payments under this subsection may, in the discretion of the public housing agency, be adjusted as frequently as twice during any five-year period where necessary to assure continued affordability. The aggregate amount of adjustments pursuant to the preceding sentence may not exceed the amount of any excess of the annual contributions provided for in the contract over the amount of assistance payments actually paid (including amounts which otherwise become available during the contract period).

"(B) For the purpose of subparagraph (A), each contract with a public housing agency for annual contributions under this subsection shall provide annual contributions equal to 115 per centum of the estimated aggregate amount of assistance required during the first year of the contract.

"(C) Any amounts not needed for adjustments under subparagraph (A) may be used to provide assistance payments for additional families.

"(D) Before making such adjustments the public housing agency shall consult with the public and the general local government regarding the impact of such adjustments on the number of families that can be assisted.

"(8) A public housing agency may utilize not to exceed 5 per centum of the amount of authority available under this subsection to provide assistance with respect to cooperative or mutual housing which has a resale structure which maintains affordability for lower income families where the agency determines such action will assist in maintaining the affordability of such housing for such families.".

"(1) in the case of an application proposing demolition of a public housing project or a portion of a public housing project, the project or portion of the project is obsolete as to physical condition, location, or other factors, making it unusable for housing purposes, or no reasonable program of modifications is feasible to return the project or portion of the project to useful life; or in the case of an application proposing the demolition of only a portion of a project, the demolition will help to assure the useful life of the remaining portion of the project; or

"(2) in the case of an application proposing disposition of real property of a public housing agency by sale or other transfer—

"(A)(i) the property's retention is not in the best interests of the tenants or the public housing agency because developmental changes in the area surrounding the project adversely affect the health or safety of the tenants or the feasible operation of the project by the public housing agency, because disposition allows the acquisition, development, or rehabilitation of other properties which will be more efficiently or effectively operated as lower income housing projects and which will preserve the total amount of lower income housing stock available in the community, or because of other factors which the Secretary determines are consistent with the best interests of the tenants and public housing agency and which are not inconsistent with other provisions of this Act; and

"(ii) for property other than dwelling units, the property is excess to the needs of a project or the disposition is incidental to, or does not interfere with, continued operation of a project; and

"(b) The Secretary may not approve an application or furnish assistance under this section under this Act unless—

"(1) the application from the public housing agency has been developed in consultation with tenants and tenant councils, if any, who will be affected by the demolition or disposition and contains a certification by appropriate local government officials that the proposed activity is consistent with the applicable housing assistance plan; and

"(2) all tenants to be displaced as a result of the demolition or disposition will be given assistance by the public housing agency and are relocated to other decent, safe, sanitary, and affordable housing, which is, to the maximum extent practicable, housing of their choice, including housing assisted under section 8 of this Act.

"(c) Notwithstanding any other provision of law, the Secretary is authorized to make available financial assistance for applications approved under this section using available annual contributions authorized under section 5(c).

Such grants may be used to rehabilitate existing structures in order to provide basic shelter, to maintain structures providing such shelter, to pay for utilities and the furnishing of such shelters, to provide for any health and safety measures that are required to protect the individuals using such shelter, and for any activity described in section 105(a) of the Housing and Community Development Act of 1974 that is consistent with the purposes of this paragraph. DEMONSTRATION PROJECT

SEC. 225. (a) The Congress finds that—

(1) the Department of Health and Human Services spends in excess of $5,000,000,000 annually for housing in the form of allowances for shelter for public assistance recipients;

(2) States administering the Department of Health and Human Services public assistance program often specify shelter allowances that have little relationship to the cost or the quality of the housing in which public assistance recipients live;

(3) at least 30 per centum of public assistance recipients live in substandard housing;

(4) the older rental buildings in which many public assistance recipients live are in those neighborhoods that need the assistance of the programs of the Department of Housing and Urban Development for preservation and rehabilitation; and

(5) there is the potential for improving housing for many lower income families by coordinating State and local government efforts in order to assure that families receiving public assistance payments from the Department of Health and Human Services are able to live in decent, safe, and sanitary housing.

(b) The purpose of this section, therefore, is to provide assistance to units of general local government and their designated agencies in order to develop a program that will—

(1) encourage the upgrading of housing occupied primarily by lower income families, including families receiving assistance under the aid for families with dependent children program established under title IV of the Social Security Act; and

(2) provide for better coordination at the local level of the efforts to assist families receiving public assistance from the Department of Health and Human Services so that these families will be able to occupy affordable housing that is decent, safe, and sanitary and that, if necessary, is rehabilitated with funds provided by the Department of Housing and Urban Development.

(c) The Secretary of Housing and Urban Development (hereafter referred to in this section as the "Secretary") shall, to the extent approved in appropriation Acts, establish and maintain a demonstration project to carry out the purpose described in subsection (b).

(d) In carrying out such project, the Secretary shall make grants to units of general local government, or designated agencies thereof, to carry out administrative plans approved by the Secretary in accordance with subsection (e), and the Secretary may make grants to States to provide technical assistance for the purpose of assisting such units of general local government to develop and carry out such plans.

(e)(1) Grants may be made to States and units of general local government and agencies thereof that apply for them in a manner and at a time determined by the Secretary and that, in the case of units of general local government and their agencies, are selected on the basis of an administrative plan described in such application.

(2) No such administrative plan shall be selected by the Secretary unless it sets forth a plan for local government activities that are designed to—

(A) require or encourage owners of rental housing occupied by lower income families to bring such housing into compliance with local housing codes;

(B) provide technical assistance, loans, or grants to assist owners described in subparagraph (A) to undertake cost-effective improvements of such housing;

(C) work with the State to establish and implement a schedule of local shelter allowances for recipients of assistance under title IV of the Social Security Act based on building quality that will be applicable to buildings involved in this program; and

(D) coordinate local housing inspection, housing rehabilitation loan or grant assistance, rental assistance, and social service programs for the purpose of improving the quality and affordability of housing for lower income families.

(3) Funds received from any grant made by the Secretary to a unit of general local government shall be made available for use according to the administrative plans and may be used for—

(A) technical assistance or financial assistance to property owners to upgrade housing projects described in paragraph (2)(A) of this subsection;

(B) temporary rental assistance to families who live in buildings assisted under this program and who are eligible for, but are not receiving, assistance under section 8 of the United States Housing Act of 1937, except that such families shall not include families receiving assistance under title IV of the Social Security Act, and the amount of such rental assistance may not exceed 20 per centum of each grant received under this section;

(C) housing counseling and referral and other housing related services;

(D) expenses incurred in administering the program carried out with funds received under this section, except that such expenses may not exceed 10 per centum of the grant received under this section; and

(E) other appropriate activities that are consistent with the purposes of this section and that are approved by the Secretary.

(f) Any recipient of a grant from the Secretary under this section shall agree to—

(1) contribute to the program an amount equal to 15 per centum of the funds received from the Secretary under this section, and the Secretary shall permit the recipient to meet this requirement by the contribution of the value of services carried out specifically in connection with the program assisted under this section;

(2) permit the Secretary and the General Accounting Office to audit its books in order to assure that the funds received under this section are used in accordance with the section; and

(3) other terms and conditions prescribed by the Secretary for the purpose of carrying out this section in an effective and efficient manner.

(g) In making grants available under this section, the Secretary shall select as recipients at least 20 units of general local government (or their designated agencies). The selection of proposals for funding shall be based on criteria that result in a selection of projects that will enable the Secretary to carry out the purpose of this section in an effective and efficient manner and provide a sufficient amount of data necessary to make an evaluation of the demonstration project carried out under this section.

(h)(1) Not later than June 1, 1984, the Secretary shall transmit to the Congress an interim report on the implementation of the demonstration under this section.

(2) The Secretary shall transmit, not later than October 1, 1985, to both Houses of the Congress a detailed report concerning the findings and conclusions that have been reached by the Secretary as a result of carrying out this section, along with any legislative recommendations that the Secretary determines are necessary.

(i) To carry out this section, there are authorized to be appropriated not to exceed $10,000,000 during fiscal year 1984, and not to exceed $15,000,000 during fiscal year 1985, to remain available until expended.

"(B) In the case of any homeowner whose assistance payments are terminated by reason of the 10-year limitation referred to in paragraph (1), and who is determined by the Secretary to be unable to assume the full payments due under the mortgage, loan, or advance of credit involved, the Secretary shall, to the extent of the availability of amounts in the fund established in subparagraph (A), contract to make, and make, continued assistance payments on behalf of such homeowner. Such continued assistance payments shall be made in an amount determined in accordance with the applicable provisions of paragraph (1) or subsection (a)(2)(B) and for such period as the Secretary determines to be appropriate.

"(C) Any amounts in such fund determined by the Secretary to be in excess of the amounts currently required to carry out the provisions of subparagraph (B) shall be invested by the Secretary in obligations of, or obligations guaranteed as to both principal and interest by, the United States or any agency of the United States.".

(3) by inserting the following new sentences after the second sentence: "The aggregate amount that may be obligated over the duration of the contracts entered into with the authority provided on or after October 1, 1983, may not exceed such sums of new budget authority as may be appropriated after the date of enactment of this sentence. The Secretary shall begin issuing new commitments and reservations to provide mortgage insurance and assistance payments under this section before the expiration of the 30-day period following the approval in any appropriation Act of budget authority for this section after the date of the enactment of this sentence.".

PET OWNERSHIP IN ASSISTED RENTAL HOUSING FOR THE ELDERLY OR HANDICAPPED

SEC. 227. (a) No owner or manager of any federally assisted rental housing for the elderly or handicapped may—

(1) as a condition of tenancy or otherwise, prohibit or prevent any tenant in such housing from owning common household pets or having common household pets living in the dwelling accommodations of such tenant in such housing; or

(2) restrict or discriminate against any person in connection with admission to, or continued occupancy of, such housing by reason of the ownership of such pets by, or the presence of such pets in the dwelling accommodations of, such person.

(b)(1) Not later than the expiration of the twelve-month period following the date of the enactment of this Act, the Secretary of Housing and Urban Development and the Secretary of Agriculture shall each issue such regulations as may be necessary to ensure (A) compliance with the provisions of subsection (a) with respect to any program of assistance referred to in subsection (d) that is administered by such Secretary; and (B) attaining the goal of providing decent, safe, and sanitary housing for the elderly or handicapped.

(2) Such regulations shall establish guidelines under which the owner or manager of any federally assisted rental housing for the elderly or handicapped (A) may prescribe reasonable rules for the keeping of pets by tenants in such housing; and (B) shall consult with the tenants of such housing in prescribing such rules. Such rules may consider factors such as density of tenants, pet size, types of pets, potential financial obligations of tenants, and standards of pet care.

(c) Nothing in this section may be construed to prohibit any owner or manager of federally assisted rental housing for the elderly or handicapped, or any local housing authority or other appropriate authority of the community where such housing is located, from requiring the removal from any such housing of any pet whose conduct or condition is duly determined to constitute a nuisance or a threat to the health or safety of the other occupants of such housing or of other persons in the community where such housing is located.

(d) For purposes of this section, the term "federally assisted rental housing for the elderly or handicapped" means any rental housing project that—

(1) is assisted under section 202 of the Housing Act of 1959; or

(2) is assisted under the United States Housing Act of 1937, the National Housing Act, or title V of the Housing Act of 1949, and is designated for occupancy by elderly or handicapped families, as such term is defined in section 202(d)(4) of the Housing Act of 1959.

TITLE III—RENTAL HOUSING REHABILITATION AND DEVELOPMENT PROGRAM

RENTAL REHABILITATION AND DEVELOPMENT GRANTS

SEC. 301. The United States Housing Act of 1937 is amended by inserting before section 18 the following:

"RENTAL REHABILITATION AND DEVELOPMENT GRANTS

"SEC. 17. (a) PROGRAM AUTHORITY.—(1) REHABILITATION AND DEVELOPMENT GRANTS.—The Secretary is authorized—

"(A) to make rental rehabilitation grants to States and units of general local government to help support the rehabilitation of privately owned real property to be used for primarily residential rental purposes in accordance with subsection (c); and

"(B) to make development grants for new construction or substantial rehabilitation in accordance with subsection (d).

"(2) AUTHORITY TO RESERVE HOUSING ASSISTANCE.—In connection with a grant under this section, the Secretary may reserve authority to provide housing assistance under section 8(o) to the extent necessary—

"(A) to provide housing assistance to persons displaced by activities under this section; or

"(B) to support the grantee's program.

"(3) AUTHORIZATION.—To carry out the purposes of this section the Secretary may utilize not to exceed $615,000,000, as provided in section 5(c) for fiscal years 1984 and 1985, of which amount—

"(A) not to exceed $150,000,000 shall be available in each such year for rental rehabilitation, of which $1,000,000 shall be available each year for technical assistance; and

"(B) not to exceed $200,000,000 for fiscal year 1984, and $115,000,000 for fiscal year 1985, shall be available for development grants.

"(b) DISTRIBUTION OF RENTAL REHABILITATION GRANT FUNDS.—(1) FORMULA ALLOCATION.—Of the amount available in any fiscal year for rehabilitation grants under this section, the Secretary shall allocate amounts for rehabilitation grants under subsection (c) to cities having populations of fifty thousand or more, urban counties, and States for use as provided in subsection (e), on the basis of a formula which shall be contained in a regulation proposed by the Secretary not later than sixty days after the effective date of this section. Such regulation shall be accompanied by the specific fund allocation for fiscal year 1984 for individual cities, urban counties, and States which would result from the proposed formula and any adjustments under paragraph (2). The formula contained in the regulation shall take into account objectively measurable conditions, including such factors as low income renter population, overcrowding of rental housing, the extent of physically inadequate housing stock, and such other objectively measurable conditions as the Secretary deems appropriate to reflect the need for assistance under this section, but excluding data relating to such factors which pertain to areas eligible for assistance under title V of the Housing Act of 1949.

"(2) ADJUSTMENTS.—Before an allocation determined under paragraph (1) for any fiscal year is made available for use the Secretary may adjust the allocation as follows:

"(A) The Secretary is authorized to establish minimum allocation amounts for cities and urban counties, representing program levels below which, in the Secretary's determination, conduct of a rental rehabilitation program would not be feasible. The amount of any allocation which is below this minimum shall be added to the allocation for the State in which the city or county is located and shall be available in accordance with subsection (e).

"(B) Beginning with fiscal years after fiscal year 1984, the Secretary is authorized to adjust the allocation for a city, urban county, or State administering a rental rehabilitation program as provided in subsection (f), by up to 15 per centum above or below the amount of such allocation, based on an annual review of performance in carrying out activities under this section in a timely manner and in achieving the result that at least 80 per centum of the units rehabilitated with assistance under this section in all program years have rents which are and remain at a level which would be affordable by lower income families. The last sentence of subparagraph (A) shall not apply to an allocation which is below the minimum amount described therein by reason of an adjustment under this subparagraph. The Secretary shall establish by regulation performance criteria for purposes of this subparagraph.

"(3) REALLOCATION.—After the allocation of rehabilitation grant amounts, the Secretary is authorized to reallocate such amounts among grantees on the basis of the Secretary's assessment of the progress of grantees in carrying out activities under this section in accordance with their specified schedules. Reallocations under this paragraph shall be designed to encourage use of these resources expeditiously, consistent with the sound development and administration of the grantees' rental rehabilitation programs.

"(4) RECAPTURE.—Any rental rehabilitation grant amounts which are not obligated at the end of any fiscal year shall be added to the amount available for allocation for such grants for the succeeding fiscal year.

"(c) GRANTS FOR MODERATE REHABILITATION.—(1) PROGRAM DESCRIPTION.—A rehabilitation grant may be made under this section on the basis of satisfactory information provided in a program description which shall be submitted by the grantee at such time and in such manner as the Secretary may prescribe and which shall contain—

"(A) a description of the grantee's proposed rental rehabilitation program, which shall consist of the activities each grantee proposes to undertake for the fiscal year, including the grantee's anticipated schedule in carrying out those activities, or, in case of a State distributing resources as provided in subsection (e), its proposed method of distributing the resources, which shall have been made available to the public;

"(B) a certification that the grantee's program was developed after consultation with the public;

"(C) a statement of the procedures and standards which will govern selection of proposals by the grantee, which procedures and standards shall take into account the extent to which the proposal represents the efficient use of Federal resources and the extent to which the housing units involved will be adequately maintained and operated with rents at the levels proposed;

"(D) an estimate of the effect of the proposed program on neighborhood preservation;

"(E) evidence demonstrating the financial feasibility of the proposed program, including the availability of non-Federal and private resources and including evidence that the projects to be selected for rehabilitation will be located in neighborhoods where rents are generally affordable to lower income families and that the character of the neighborhood indicates that such rents will not materially change over an extended period; and

"(F) such other information as the Secretary shall prescribe.

"(2) PROGRAM REQUIREMENTS.—A rental rehabilitation program assisted under this section shall provide that—

"(A) grant assistance shall only be used to rehabilitate real property to be used for primarily residential rental purposes;

"(B) grants shall only be used to assist the rehabilitation of real property located in neighborhoods where the median income does not exceed 80 per centum of the median income for the area;

"(C) grant assistance for any structure shall not exceed 50 per centum of the total costs associated with the rehabilitation of that structure, as determined by the Secretary, except that where the Secretary determines that refinancing costs and the special nature of the project require a greater amount of assistance, the grant amount shall be limited to not to exceed 50 per centum of the development cost including acquisition;

"(D) rehabilitation assisted under this section shall only be that which is necessary to correct substandard conditions, to make essential improvements, and to repair major systems in danger of failure;

"(E) the amount of rental rehabilitation assistance provided under this section for any structure shall not exceed $5,000 per unit except as otherwise determined by the Secretary in areas of high material and labor costs where the grantee demonstrates that every appropriate step has been taken by the grantee to contain the amount of assistance within the limit set by this paragraph and that an exception is necessary to conduct a rehabilitation program while not exceeding the rehabilitation standards of subparagraph (D);

"(F) a structure may be assisted under this section only if the rehabilitation of such structure will not cause the involuntary displacement of very low-income families by families who are not very low-income families;

"(G) the owner of each assisted structure agrees—

"(i) not to discriminate against prospective tenants on the basis of their receipt of or eligibility for housing assistance under any Federal, State, or local housing assistance program or, except for a structure for housing for the elderly, on the basis that the tenants have a minor child or children who will be residing with them; and

"(ii) not to convert the units to condominium ownership (or in the case of a cooperative, to condominium ownership or any form of cooperative ownership not eligible for assistance under this section);

for at least 10 years beginning on the date on which the units in the project are completed;

"(H) the State or unit of general local government that receives the assistance certifies to the satisfaction of the Secretary that the assistance will be made available in conformity with Public Law 88-352 and Public Law 90-284; and

"(I) 100 per centum of the amount of assistance provided under this section shall be used by the grantee for the benefit of lower income families, except that such requirement shall be reduced to (i) 70 per centum if the grantee certifies in accordance with standards prescribed by the Secretary that such reduction is necessary, and that the grantee cannot develop a proposed program which complies with such requirement, after consultation with the public regarding the inability to develop a program which complies with such requirement, and (ii) to not less than 50 per centum where the Secretary determines that such further reduction is necessary.

"(3) SECRETARIAL RESPONSIBILITY.—The Secretary shall assure that—

"(A) an equitable share of the rehabilitation grants under this section is used to assist in the provision of housing for families, including large families with children; and

"(B) a priority shall be given to projects containing units in substandard condition which are occupied by very low-income families.

"(d) GRANTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION.—

"(1) TYPES OF ASSISTANCE.—Development grant funds may be used by the grantee to make grants or loans, provide interest reduction payments, or furnish other comparable assistance to support the new construction or substantial rehabilitation of real property to be used primarily for residential rental purposes.

"(2) Area Eligibility.—To be eligible for development grants under this subsection, a project must be located in an area that is experiencing a severe shortage of decent rental housing opportunities for families and individuals without other reasonable and affordable housing alternatives in the private market. The Secretary shall issue regulations, consistent with the preceding sentence, that set forth minimum standards for determining areas eligible for assistance. Such standards shall be based on objectively measurable conditions, and shall take into account the extent of poverty, the extent of occupancy of physically inadequate housing by lower income families, the extent of housing overcrowding experienced by lower income families, the level and duration of rental housing vacancies, the extent of the lag between the estimated need for and production of rental housing, and other objectively measurable conditions specified by the Secretary consistent with the first sentence of this subsection. The Secretary shall propose regulations under this paragraph not later than 60 days after the date of enactment of this section and shall promptly transmit to the Congress such proposed regulations accompanied by a list of those areas which meet the minimum standards contained in such regulations. Any unit of government located in an area which meets such minimum standards is eligible to submit an application for a rental housing development grant under this section. The Secretary may also consider an application for a project to be located in an area which is not eligible under such standards where the Secretary determines that a project involving assistance for other than moderate rehabilitation is necessary in order to meet special housing needs or to advance a particular neighborhood preservation purpose.

"(3) Application.—A development grant may be made under this section on the basis of information provided in an application which shall be submitted by the grantee at such time and in such manner as the Secretary may prescribe. In addition to information relating to the selection criteria set forth in paragraph (5), the application shall contain—

"(A) a description of the grantee's proposed rental development program, which shall consist of the activities the grantee proposes to undertake for the fiscal year, including a specification of the grantee's anticipated schedule in carrying out those activities;

"(B) a certification that the grantee's program was developed after consultation with the public;

"(C) a statement of the procedures and standards which will govern selection of proposals by the grantee, which procedures and standards shall take into account the extent to which the proposal represents the efficient use of Federal resources and the extent to which the housing units involved will be adequately maintained and operated with rents maintained at the levels proposed;

"(D) an estimate of the effect of the proposed program on neighborhood preservation; and

"(E) such other information as the Secretary shall prescribe.

"(4) Program Requirements.—A rental development program assisted under this section shall provide that—

"(A) grant assistance shall be used to develop real property to be used for residential rental purposes only;

"(B) grant assistance for any structure shall not exceed 50 per centum of the total costs associated with the rehabilitation or development of that structure, as determined by the Secretary, except that where the Secretary determines that refinancing costs and the special nature of the project require a greater amount of assistance, the grant amount shall be limited to not to exceed 50 per centum of the development cost including acquisition;

"(C) a structure may be assisted under this section only if the development of such structure will not cause the involuntary displacement of very low-income families by families who are not very low-income families;

"(D) the owner of each assisted structure agrees—

"(i) not to discriminate against prospective tenants on the basis of their receipt of or eligibility for housing assistance under any Federal, State, or local housing assistance program or, except for a structure for housing for the elderly, on the basis that the tenants have a minor child or children who will be residing with them; and

"(ii) not to convert the units to condominium ownership (or in the case of a cooperative, to condominium ownership or any form of cooperative ownership not eligible for assistance under this section);

during the 20-year period beginning on the date on which the units in the project are available for occupancy;

"(E) the owner of each assisted structure agrees that, during the 20-year period beginning on the date on which 50 per centum of the units in the structure are occupied or completed, at least 20 per centum of the units the construction or substantial rehabilitation of which is provided for under the application shall be occupied, or available for occupancy by, persons and families whose incomes do not exceed 80 per centum of the area median income;

"(F) the structure—

"(i) will have a value after rehabilitation or construction that is not more than the amount of a mortgage on the structure that could be insured under section 207 of the National Housing Act; and

"(ii) is secured by a mortgage which bears a rate of interest and contains such other terms and conditions as the Secretary determines are reasonable;

"(G) the grantee must commence construction or substantial rehabilitation activities not later than 24 months after notice of project selection; and

"(H) the State or unit of general local government that receives the assistance certifies to the satisfaction of the Secretary that the assistance will be made available in conformity with Public Law 88-352 and Public Law 90-284.

"(5) PROJECT SELECTION.—In selecting projects to receive development grants, the Secretary shall make such selection on the basis of the extent—

"(A) of the severity of the shortage of decent rental housing opportunities in the area in which the project or projects are to be located for families and individuals without other reasonable and affordable housing alternatives in the private market;

"(B) of non-Federal public and private financial or other contributions that reduce the amount of assistance necessary under this section;

"(C) to which the project or projects contribute to neighborhood development and mitigate displacement;

"(D) to which the applicant has established a satisfactory record of performance in meeting assisted housing needs and has the capacity to undertake the program in a timely manner;

"(E) to which the assistance requested will provide the maximum number of units for the least cost to the Federal Government, taking into consideration the extent to which assistance provided will be recaptured and cost differences among different areas, among financing alternatives, and among the types of projects and tenants being served;

"(F) to which the grantee will establish a mechanism to assure the maintenance of affordable rentals for lower income families;

"(G) to which the applicant has demonstrated the financial feasibility of the proposed program, including the availability of non-Federal and private resources; and

"(H) to which an equitable share of the development grant funds under this section will be used to assist in the provision of housing for families, including large families with children.

"(6) Priorities.—In selecting projects for grants under this subsection, the Secretary shall give a priority to proposals involving projects—

"(A) which exceed the minimum requirements of paragraph (4)(E); and

"(B) in areas where the waiting lists for housing assistance are relatively long and where families holding certificates under section 8 require an excessive length of time to find housing.

"(7) Enforcement of Program Requirements.—(A) The grantee shall take appropriate legal action to enforce compliance with the requirements of this subsection by the owner of any assisted property or his or her successors in interest during the 20-year period beginning on the date on which 50 per centum of the units are occupied or are completed. For any violation of such agreements, the owner or his or her successors in interest shall make a payment to the grantee of an amount that equals the total amount of assistance provided under this title with respect to such project, plus interest thereon (without compounding), for each year and any fraction thereof that the assistance was outstanding, at a rate determined by the Secretary taking into account the average yield on outstanding marketable long-term obligations of the United States during the month preceding the date on which the assistance was made available. The amount of such assistance (and accrued interest) which is required to be repaid shall be reduced by 10 per centum for each full year in excess of 10 years which intervened between the commencement of the period and the violation. Any amounts recovered by the grantee shall be used to furnish assistance under this section.

"(B) Notwithstanding any other provision of law, any assistance provided under this subsection shall constitute a debt, which is payable in the case of any failure to carry out the agreements, and shall be secured by the security instruments provided by the owner to the grantee.

"(8)(A) Rent Provisions.—Rents charged for units available for occupancy by lower income families in any project assisted under this subsection shall be approved by the grantee. In approving such rents, the grantee shall provide that the rents of such units are not more than 30 per centum of the adjusted income of a family whose income equals 50 per centum of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families. Not less than 30 days prior written notice of any increase in rents shall be provided to such tenants.

"(B) Any schedule of rents submitted by an owner to the grantee for approval shall be deemed to be approved unless the grantee informs the owner, within 60 days after receiving such schedule, that such schedule is disapproved.

"(9) Grant Amount.—The amount of a development grant provided under this subsection shall not be more than that amount which will provide decent rental or cooperative housing of modest design which is affordable for families and individuals without other reasonable and affordable housing alternatives in the private market, including an amount necessary to achieve compliance with paragraph (8)(A).

"(e) State Program.—(1) Except as provided in paragraph (2), the State shall administer resources made available under subsection (b)(2) for any fiscal year. These resources shall only be used to carry out activities under this section in cities with populations of less than fifty thousand and in urban counties and cities whose allocations are less than the minimum allocation amount established under subsection (b)(2), but may not be used in areas which are eligible for assistance under title V of the Housing Act of 1949. The State may use all or part of these resources (A) to carry out its own rental rehabilitation program, or (B) to distribute them to units of general local government. A city with a population over fifty thousand may, with the agreement of the State government, elect to contract with the State to administer the grant program under this section in any fiscal year.

"(2) States may elect not to administer resources made available under subsection (b)(2) of this section. This election shall be made in such manner and before such time as the Secretary may prescribe. The Secretary shall administer the resources available to any State exercising such an election in accordance with regulations and procedures prescribed by the Secretary, including the administration of grant programs of cities with populations over fifty thousand which elect not to administer their own program. Such regulations shall, to the maximum extent practicable, be comparable to those for cities and urban counties receiving resources under subsection (b).

"(3) A State may apply for and receive, on behalf of a unit of local government located in that State and with the concurrence of that unit of general local government, a rental development grant to be used in accordance with the provisions of subsection (d).

"(4) In any case in which the State is a grantee under any provision of this section, the Secretary shall require that the State take such actions as may be appropriate to assure compliance with the program requirements, owner agreements, and other provisions of this section.

"(f) APPLICABILITY OF REQUIREMENTS OR AGREEMENTS.—Requirements imposed by or agreements made with States and units of general local government regarding rents in structures assisted under this section (including requirements relating to the rents which may be charged after rehabilitation) shall not apply to a structure assisted under this section unless (1) such requirements are imposed or agreements are entered into pursuant to a State law or local ordinance of general applicability which was enacted and in effect in that jurisdiction prior to the date of enactment of this section, and (2) such requirements or agreements would apply generally to structures not assisted under this section.

"(g) RELOCATION.—The Secretary shall by regulation establish such standards governing reasonable relocation payments and other related assistance as the Secretary determines to be appropriate.

"(h) ADMINISTRATIVE EXPENSES.—Grantees receiving assistance under this section shall not deduct therefrom any amounts to cover administrative expenses incurred by them in carrying out their responsibilities under this section.

"(i) PRESERVATION, ENVIRONMENTAL POLICY, AND LABOR STANDARDS.—(1) The Secretary shall establish procedures which support national historic preservation objectives and which assure that, if any rehabilitation or development proposed to be assisted under this section would affect property which is included on the National Register of Historic Places or which is eligible for inclusion on the National Register of Historic Places, such activity shall not be undertaken unless (A) it will reasonably meet the standards issued by the Secretary of the Interior and the appropriate State historic preservation officer is afforded the opportunity to comment on the specific rehabilitation or development program, or (B) the Advisory Council on Historic Preservation is afforded an opportunity to comment on cases for which the grantee of assistance, in consultation with the State historic preservation officer, determines that the proposed activity cannot reasonably meet such standards or would adversely affect historic property as defined therein.

"(2) The Secretary's award and grantee's use of resources made available under this section shall be subject to section 104(f) of the Housing and Community Development Act of 1974.

"(3) A structure assisted under this section shall be treated as a project subject to a mortgage insured under section 220 of the National Housing Act for the purpose of section 212 of such Act.

"(j) FINANCING.—Subject to terms and conditions that are prescribed by the Secretary and are consistent with the purpose and other provisions of this section, any obligation issued by a State or local housing agency for the purpose of financing the development of a project or projects assisted under this section is hereby deemed an obligation that meets the requirements of, and has the benefits (including the benefit of interest earned with respect to the obligation being exempt from Federal taxation) associated with, an obligation described in section 11(b).

"(k) DEFINITIONS.—For the purpose of this section—

"(1) the term 'rehabilitation grant' means a grant to finance moderate rehabilitation;

"(2) the term 'development grant' means a grant to finance new construction or substantial rehabilitation;

"(3) the Secretary shall use the same population data and rules for designating cities and urban counties as apply under title I of the Housing and Community Development Act of 1974;

"(4) the term 'real property to be used primarily for residential rental purposes' includes cooperative or mutual housing which has a resale structure which enables the cooperative to maintain affordability for lower income families; and

"(5) the term 'grantee' means—

"(A) any city or urban county receiving resources under this section;

"(B) any State administering a rental rehabilitation or development program as provided in subsection (f); and

"(C) any unit of general local government which receives assistance from the Secretary as provided in subsection (f)(2).

The Secretary shall encourage cooperation by units of general local government in the administration of grants under this section by permitting consortia of geographically proximate units of general local government to apply for assistance on behalf of their members, including establishment of eligibility under subsection (b) for consortia whose combined populations exceed fifty thousand and which can otherwise meet the requirements of such subsection. Any amounts made available to such a consortium shall be deducted from the allocation to the State in which the units of general local government are located.

"(l) REVIEW AND AUDIT.—The Secretary shall, at least on an annual basis, make such reviews and audits as may be necessary or appropriate to determine—

"(1) where the grantee is a unit of general local government or a State carrying out its own program as provided in subsection (f)(1), whether the grantee has carried out its activities in a timely manner and in accordance with the requirements of this section, and has a continuing capacity to carry out those activities in a timely manner; and

"(2) where the grantee is a State distributing resources made available under this section to units of general local government as provided in subsection (e)(2), whether the State (A) has distributed such resources in a timely manner and in accordance with the requirements of this section, and (B) has made such reviews and audits of the units of general local government as may be necessary or appropriate to determine whether they have satisfied the performance criteria described in paragraph (1).

In addition to the adjustments based on performance authorized by subsection (b)(2), the Secretary may adjust, reduce, or withdraw resources made available to States and units of general local government receiving assistance under this section, or take other action as appropriate in accordance with the findings of these reviews and audits, except that resources already expended on eligible activities shall not be recaptured or deducted from future resources made available to the grantee. Any amounts which become available as a result of actions under this paragraph shall be reallocated in the year in which they become available to such grantee or grantees as the Secretary may determine.

"(m) PERFORMANCE REPORT.—Prior to the beginning of fiscal year 1985 and each fiscal year thereafter, each grantee shall submit to the Secretary a performance report concerning the activities carried out pursuant to this section, together with an assessment by the grantee of the relationship of these activities to the objectives of this section. Such report shall contain an analysis of the program's cost effectiveness, the type and income levels of tenants who benefit from the rehabilitation program, any tenant displacement resulting from the program, and any other information the Secretary may require. To facilitate this reporting requirement, each grantee shall require owners of property rehabilitated under this section to provide verified income data and other pertinent tenant demographic information as prescribed by the Secretary (to include household size and race) or to otherwise arrange for the collection of such information on an annual basis. The Secretary shall stipulate the format for such data collection to assure that such information can be aggregated at the national level to allow congressional oversight.

"(n) REPORT TO CONGRESS.—Prior to the beginning of fiscal year 1985 and each fiscal year thereafter, the Secretary shall provide a report to the Congress as to the overall progress of grantees in meeting the objectives of this section. Such report shall include an analysis of program costs, services delivered, beneficiaries, and the extent to which lower income tenants have been displaced as a result of rehabilitation assisted under this section.".

"(b) Notwithstanding any other provision of this Act, with respect to mortgages covering a property upon which there is located a one- to four-family residence—

"(1) the Secretary may insure and make commitments to insure under this title pursuant to this section advances made during construction where the Secretary determines that the proposed construction is otherwise acceptable and meets an applicable tribal or national model building code, and that no feasible financing alternative is available;

"(2) the applicable percentage limitation on the amount of the principal obligation of a mortgage based on the appraised value or replacement cost, as appropriate, of a one- to four-family owner-occupied residence contained in this title shall apply in the case of all mortgages insured pursuant to this section without regard to whether the residences are owner-occupied where the residences are owned by the tribe; and

"(3)(A) the Secretary may require an Indian tribe, only as a condition of insurance made under this title pursuant to this section, to pledge income from tribal resources or income from tribal assets not subject to a restriction by the Secretary of the Interior or pledge grants under title I of the Housing and Community Development Act of 1974 or any other Federal grant program administered by the Secretary of Housing and Urban Development to be used to reimburse the Secretary for any mortgage insurance claims paid in connection with residences insured pursuant to this section; or

"(e) A mortgage insured under this section may be assumed, subject to credit approval by the lender and the consent of the tribe to an assumption of the existing lease or the grant of a new lease, without an adjustment of the interest rate. Any other sale of a property subject to a mortgage insured under this section may be made only if a new lease is granted, except that a sale following a foreclosure may be accompanied by an assumption of the lease with the consent of the tribe.

"(f)(1) The Secretary shall make information regarding the status and payment history of loans insured under this section available to local credit bureaus and prospective creditors. Prior to accepting assignment of a mortgage, the Secretary shall require mortgagees to submit documentation that mortgagors have been counseled in a face-to-face interview, informed of the provisions of this subsection or other available assistance, and provided with the names and addresses of officials of the Department of Housing and Urban Development to whom further communications shall be addressed.

"(2) Notwithstanding the requirement for conveyance of title under section 204, a mortgagee under this section shall be entitled to receive the benefit of insurance under this section in the case of a mortgage which is more than 90 days in default upon conveyance of the lease agreement and the mortgage documents.

For purposes of this paragraph, the Secretary may provide appropriate financial incentives to reinstate the loan commensurate with sound management of the insurance fund.

"(4) If the Secretary determines that a mortgagor is not making a good-faith effort to cure a default, and that trust fund or tribal income is available under subsection (b)(3)(B), the Secretary shall commence proceedings for the garnishment of the mortgagor's distributed share of tribal or trust fund income in order to collect loan payments that are past due. Proceedings under this paragraph may be instituted in a tribal court, court of competent jurisdiction designated by the tribe, or Federal district court.

"(5) If the Secretary determines such action is necessary to protect the insurance fund from undue loss, the Secretary may initiate foreclosure proceedings with respect to any mortgage acquired under this subsection. Such proceeding may take place in a tribal court, a court of competent jurisdiction, or Federal district court. Any such court shall have jurisdiction to convey to the Secretary the remaining life of a lease on the real property and to order eviction of the delinquent mortgagor.

"(g) In the administration of this section, the Secretary shall establish a premium charge for insurance that will be sufficient to cover the full costs of the mortgage insurance program under this section, except that such charge may not exceed 3 percent per annum of the principal amount of the mortgage outstanding at any time. Not later than September 30, 1984, the Secretary shall determine and report to the Congress on the feasibility of eliminating any excess amount of the premium under this section over the premium under section 203. "(h) For purposes of this section:

"(4) meets such other conditions as the Secretary may require by regulation.

"(b) The mortgagee's share of a property's or stock's net appreciated value shall be payable upon sale or transfer (as defined by the Secretary) of the property or stock or payment in full of the mortgage, whichever occurs first. If there has been no sale or transfer at the time the mortgagee's share of net appreciated value becomes payable, the sales price for purposes of this section shall be determined by means of an appraisal conducted in accordance with procedures approved by the Secretary and provided for in the mortgage.

"(c) In the event of a default, the mortgagee shall be entitled to receive the benefits of insurance in accordance with section 204(a), but such insurance benefits shall not include the mortgagee's share of net appreciated value. The term 'original principal obligation of the mortgage' as used in section 204 shall not include the mortgagee's share of net appreciated value.

"(d) Mortgages insured pursuant to this section which contain provisions for sharing appreciation or which otherwise require or permit increases in the outstanding loan balance which are authorized under this section or under applicable regulations shall not be subject to any State constitution, statute, court decree, common law, rule, or public policy limiting or prohibiting increases in the outstanding loan balance after execution of the mortgage.

"(e) In carrying out the provisions of this section, the Secretary shall encourage the use of insurance under this section by low and moderate income tenants who would otherwise be displaced by the conversion of their rental housing to condominium or cooperative ownership.

"(f) The Secretary shall prescribe adequate consumer protections and disclosure requirements with respect to mortgages insured under this section, and may prescribe such other terms and conditions as may be appropriate to carry out the provisions of this section.

"(b) The mortgagee's share of a property's net appreciated value shall be payable upon maturity or upon payment in full of the loan or sale or transfer (as defined by the Secretary) of the property, whichever occurs first. The term of the mortgage shall not be less than 15 years, and shall be repayable in equal monthly installments of principal and fixed interest during the mortgage term in an amount which would be sufficient to retire a debt with the same principal and fixed interest rate over a period not exceeding 30 years. In the case of a mortgage which will not be completely amortized during the mortgage term, the principal obligation of the mortgage may not exceed 85 percent of the estimated value of the property or project. For purposes of this section, the term 'net appreciated value' means the amount by which the sales price of the property (less the mortgagor's selling costs) exceeds the value (or replacement cost, as appropriate) of the property at the time the commitment to insure is issued (with adjustments for capital improvements stipulated in the loan contract). If there has been no sale or transfer at the time the mortgagee's share of net appreciated value becomes payable, the sales price for purposes of this section shall be determined by means of an appraisal conducted in accordance with procedures approved by the Secretary and provided for in the mortgage.

"(c) In the event of a default, the mortgagee shall be entitled to receive the benefits of insurance in accordance with section 204, but such insurance benefits shall not include the mortgagee's share of net appreciated value. The term 'original principal obligation of the mortgage' as used in section 204(a) shall not include the mortgagee's share of net appreciated value.

"(d) The Secretary shall establish by regulation the maximum percentage of net appreciated value which may be payable to a mortgagee as the mortgagee's share. The Secretary shall also establish disclosure requirements applicable to mortgagees making mortgage loans pursuant to this section, to assure that mortgagors are informed of the characteristics of such mortgages.

"(e) Mortgages insured pursuant to this section which contain provisions for sharing appreciation or which otherwise require or permit increases in the outstanding loan balance which are authorized under this section or under applicable regulations shall not be subject to any State constitution, statute, court decree, common law, rule, or public policy limiting or prohibiting increases in the outstanding loan balance after execution of the mortgage.

during the 5-year period beginning on the date on which the units in the housing are available for occupancy;

The Secretary may adjust, reduce, or withdraw resources made available to grantees receiving assistance under this section, or take other action as appropriate in accordance with the findings of these reviews and audits. Any amounts which became available as a result of actions under this subsection shall be reallocated in the year in which they become available to such grantee or grantees as the Secretary may determine.

"(h) The Secretary is authorized to prescribe such rules and regulations and make such delegations of authority as he deems necessary to carry out this section within 90 days after the date of enactment of this section.

"(i) The Secretary shall establish procedures which support national historic preservation objectives and which assure that, if any rehabilitation proposed to be assisted under this section would affect property that is included or is eligible for inclusion on the National Register of Historic Places, such activity shall not be undertaken unless (1) it will reasonably meet the standards for rehabilitation issued by the Secretary of the Interior and the appropriate State historic preservation officer is afforded the opportunity to comment on the specific rehabilitation plan, or (2) the Advisory Council on Historic Preservation is afforded an opportunity to comment on cases for which the recipient of assistance, in consultation with the State historic preservation officer, determines that the proposed rehabilitation activity cannot reasonably meet such standards or would adversely affect historic property as defined therein.

For the purpose of the preceding sentence, rates and terms and conditions need not be equivalent to those offered by foreign countries, but should be established so that the effect of such rates, terms, and conditions for all the Bank's programs, including those for small businesses and for medium-term financing, will be to neutralize the effect of such foreign credit on international sales competition. The Bank shall consider its average cost of money as one factor in its determination of interest rates, where such consideration does not impair the Bank's primary function of expanding United States exports through fully competitive financing. It is also the policy of the United States".

(1) to expand employment and economic growth in the United States by expanding United States exports to the markets of the developing world;

(2) to stimulate the economic development of countries in the developing world by improving their access to credit for the importation of United States products and services for developmental purposes;

(3) to neutralize the predatory financing engaged in by many nations whose exports compete with United States exports, and thereby restore export competition to a market basis; and

NEGOTIATING MANDATE

Sec. 643. The President shall vigorously pursue negotiations to limit and set rules for the use of tied aid for exports. The negotiating objectives of the United States should include reaching agreements—

(1) to define the various forms of tied aid credit, particularly mixed credits under the Arrangement on Guidelines for Officially Supported Export Credits established through the Organization for Economic Cooperation and Development (hereinafter in this part referred to as the "Arrangement");

(2) to phase out the use of government-mixed credits by a date certain;

"(B) the annual external debt service required of the country involved is a manageable and prudent percentage of the projected annual export earnings of such country; and

"(C) the economic adjustment program will not have an adverse impact on international economic growth, world trade, exports, and employment of other member countries, and the long-term solvency of banks.

"(c) The provisions of subsection (b)(2) shall not apply in any case in which the Secretary of the Treasury first determines and provides written documentation to the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives that—

"(1) an emergency exists in a nation that has applied to the Fund for assistance that requires an immediate short-term loan to avoid disrupting orderly financial markets;

Not later than January 31 of each year, or at the time of the transmittal by the President to the Congress of the annual presentation materials on foreign assistance, whichever is earlier, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate a full and complete report which assesses, with respect to each foreign country, the degree of support by the government of each such country during the preceding twelve-month period for the foreign policy of the United States. Such report shall include, with respect to each such country which is a member of the United Nations, information to be compiled and supplied by the Permanent Representative of the United States to the United Nations, consisting of a comparison of the overall voting practices in the principal bodies of the United Nations during the preceding twelve-month period of such country and the United States, with special note of the voting and speaking records of such country on issues of major importance to the United States in the General Assembly and the Security Council, and shall also include a report on actions with regard to the United States in important related documents such as the Non-Aligned Communique. The Administrator of the Agency for International Development is directed to terminate the economic assistance program to Syria and to deobligate all funds heretofore obligated for assistance to Syria, except that such funds may continue to be available to finance the training or studies outside of Syria of students whose course of study or training program began before enactment of this joint resolution. The Administrator of the Agency for International Development is authorized to adopt as a contract of the United States Government, and assume any liabilities arising thereunder (in whole or in part), any contract with a United States contractor which had been funded by the Agency for International Development prior to the date of enactment of this joint resolution. None of the funds appropriated or otherwise made available under this subsection may be available for any country during any three-month period beginning on or after October 1, 1983, immediately following a certification by the President to the Congress that the government of such country is failing to take adequate measures to prevent narcotic drugs or other controlled substances (as listed in the schedules in section 202 of the Comprehensive Drug Abuse and Prevention Control Act of 1971 (21 U.S.C. 812)) which are cultivated, produced, or processed illicitly, in whole or in part, in such country, or transported through such country from being sold illegally within the jurisdiction of such country to United States Government personnel or their dependents or from entering the United States unlawfully.

98th Congress

An Act

Aug. 26, 1983
[H.R. 3190]

To establish an improved program for extra long staple cotton

Extra Long Staple Cotton Act of 1983.
7 USC 1421 note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Extra Long Staple Cotton Act of 1983".

Repeal.
7 USC 1347.
7 USC 1441.

SEC. 2. Section 347 of the Agricultural Adjustment Act of 1938, as amended, and section 101(f) of the Agricultural Act of 1949, as amended, are repealed effective beginning with the 1984 crop of extra long staple cotton.

7 USC 1342 note.
7 USC 1342-1344, 1344b, 1345, 1346, 1377.

SEC. 3. Sections 342, 343, 344, 344a, 345, 346, and 377 of the Agricultural Adjustment Act of 1938, as amended, shall not be applicable to the 1984 and subsequent crops of extra long staple cotton.

7 USC 1444.

SEC. 4. Effective beginning with the 1984 crop of extra long staple cotton, section 103 of the Agricultural Act of 1949, as amended, is amended by adding at the end thereof a new subsection as follows:

"(h)(1) For purposes of this subsection, extra long staple cotton means cotton which is produced from pure strain varieties of the Barbadense species or any hybrid thereof, or other similar types of extra long staple cotton, designated by the Secretary, having characteristics needed for various end uses for which American upland cotton is not suitable and grown in irrigated cotton-growing regions of the United States designated by the Secretary or other areas designated by the Secretary as suitable for the production of such varieties or types and which is ginned on a roller-type gin or, if authorized by the Secretary, ginned on another type gin for experimental purposes.

Loans.

"(2) The Secretary shall, upon presentation of warehouse receipts reflecting accrued storage charges of not more than sixty days, make available to producers nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at a level which is not less than 50 per centum in excess of the loan level established for each crop of Strict Low Middling one and one-sixteenth inch upland cotton (micronaire 3.5 through 4.9) at average location in the United States. If authorized by the Secretary, nonrecourse loans provided for in this subsection may, upon request of the producer during the tenth month of the loan period for the cotton, be made available for an additional term of eight months. The loan level for any crop of extra long staple cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective and such level shall not thereafter be changed.

Payments.

"(3)(A) In addition, payments shall be made for each crop of extra long staple cotton to producers on each farm at a rate equal to the amount by which the higher of—

"(i) the average market price received by farmers for extra long staple cotton during the first eight months of the marketing year for such crop, as determined by the Secretary, or

97 STAT. 496

"(ii) the loan level determined under paragraph (2) of this subsection for such crop,

is less than the established price per pound times, in each case, the farm program acreage for extra long staple cotton (determined in accordance with paragraph (6) or paragraph (8)(A) of this subsection, but in no event on a greater acreage than the acreage actually planted to extra long staple cotton for harvest), multiplied by the farm program payment yield for extra long staple cotton (determined in accordance with paragraph (7) of this subsection).

"(B) The established price for each crop of extra long staple cotton shall be 120 per centum of the loan level determined for such crop under paragraph (2) of this subsection.

Acreage limitation program.

"(C) If the Secretary establishes an acreage limitation program for a crop of extra long staple cotton in accordance with paragraph (8)(A) of this subsection and determines that deficiency payments will likely be made for such crop of extra long staple cotton under subparagraph (A) of this paragraph, the Secretary may make available advance deficiency payments for such crop to producers who agree to participate in the acreage limitation program. Such advance payments shall be made available to producers as soon as practicable after the producer files a notice of intention to participate in such acreage limitation program and in such amount as the Secretary determines appropriate to encourage adequate participation in such program, except that such amount shall not exceed an amount determined by multiplying (i) the estimated farm program acreage for the crop, by (ii) the farm program payment yield for the crop, by (iii) 50 per centum of the projected payment rate, as determined by the Secretary. In any case in which the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under subparagraph (A) of this paragraph, is less than the amount paid to the producer as an advance deficiency payment under this paragraph, the producer shall refund an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer. If the Secretary determines that no deficiency payments are due producers on a crop, the producer who received advanced payments on such crop shall refund such payments. If a producer fails to comply with the requirements under the acreage limitation program after obtaining an advance deficiency payment under this paragraph, the producer shall immediately repay the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe.

National program acreage.

"(4) The Secretary shall establish for each crop of extra long staple cotton a national program acreage. Such national program acreage shall be announced by the Secretary not later than November 1 of the calendar year preceding the year for which such acreage is established. The Secretary may revise the national program acreage first announced for any crop year for the purpose of determining the allocation factor under paragraph (5) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall announce such revised national program acreage as soon as it has been made. The national program acreage shall be the number of harvested acres the Secretary deter-

97 STAT. 496

mines (on the basis of the estimated weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) of extra long staple cotton that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. The national program acreage shall be subject to such adjustment as the Secretary determines necessary, taking into consideration the estimated carryover supply and the stocks not accounted for by official domestic consumption and export data, so as to provide for an adequate but not excessive total supply of extra long staple cotton for the marketing year for the crop for which such national program acreage is established. In no event shall the national program acreage be less than sixty thousand acres.

"(5) The Secretary shall determine a program allocation factor for each crop of extra long staple cotton. The allocation factor (not to exceed 100 per centum) shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crop.

Farm program acreage.

"(6) The individual farm program acreage for each crop of extra long staple cotton shall be determined by multiplying the allocation factor by the acreage of extra long staple cotton planted for harvest on each farm for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage of extra long staple cotton planted for harvest on the farm from the acreage base established for the farm under paragraph (8)(A) of this subsection by at least the percentage recommended by the Secretary in the announcement of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of extra long staple cotton planted for harvest is less than the acreage base established for the farm under paragraph (8)(A) of this subsection, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for extra long staple cotton, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

Farm program payment yield.

"(7) The farm program payment yield for each crop of extra long staple cotton shall be determined on the basis of the actual yields per harvested acre on the farm for the preceding three years, except that the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, or other natural disaster, or other condition beyond the control of the producers. In case farm yield data for one or more years are unavailable or there was no production, the Secretary shall provide for appraisals to be made on the basis of actual yields and program payment yields for similar farms in the area for which data are available. Notwithstanding the foregoing provisions of this paragraph in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this paragraph. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

97 STAT. 497

Acreage limitation.

"(8)(A) Notwithstanding any other provision of this subsection, the Secretary may establish a limitation on the acreage planted to extra long staple cotton if the Secretary determines that the total supply of extra long staple cotton, in the absence of such limitation, will be excessive taking into account the need for an adequate carryover to maintain reasonable and stable prices and to meet a national emergency. Such limitation shall be achieved by applying a uniform percentage reduction to the acreage base for each extra long staple cotton-producing farm. Producers who knowingly produce extra long staple cotton in excess of the permitted acreage for the farm shall be ineligible for extra long staple cotton loans and payments with respect to that farm. The acreage base for any farm for the purpose of determining any reduction required to be made for any year as a result of a limitation under this subparagraph shall be the average acreage planted on the farm to extra long staple cotton for harvest in the three crop years immediately preceding the year prior to the year for which the determination is made. For the purpose of the preceding sentence, acreage planted to extra long staple cotton for harvest shall include any acreage which the producers were prevented from planting to extra long staple cotton or other nonconserving crops in lieu of extra long staple cotton because of drought, flood, or other natural disaster or other condition beyond the control of the producers. The Secretary may make adjustments to reflect established crop-rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable base. There is hereby established for the 1984, 1985, and 1986 crops an acreage base reserve equal to 5 per centum of the total of the farm acreage bases established for the crop under the foregoing provisions of this subparagraph. Such reserve shall be in addition to the total of the farm acreage bases and shall be used by the county committees, in accordance with regulations of the Secretary, for making adjustments of farm acreage bases to correct inequities and prevent hardship, and for establishing bases for farms on which no extra long staple cotton was planted during the preceding four years. A number of acres on the farm determined by dividing (i) the product obtained by multiplying the number of acres required to be withdrawn from the production of extra long staple cotton times the number of acres actually planted to such commodity, by (ii) the number of acres authorized to be planted to such commodity under the limitation established by the Secretary, shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, which will assure protection of such acreage from weeds and wind and water erosion. The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'. The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the reduced acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely. If an acreage limitation program is announced under this paragraph for a crop of extra long staple cotton, paragraphs (4), (5), and (6) of this subsection shall not be applicable to such crop, including any prior announcement which may have been made under such paragraphs with respect to such crop. The individual farm program acreage shall be the actual acreage planted on the farm to extra long staple cotton for harvest within the permitted extra long staple cotton acreage for the farm as established under this paragraph.

Acreage base reserve.

97 STAT. 498

"(B) The Secretary may make land diversion payments to producers of extra long staple cotton, whether or not an acreage limitation program for extra long staple cotton is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of extra long staple cotton to desirable goals. Such land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers

Land diversion payments.

Contract bids.

Acreage limitation.

under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(C) The reduced acreage and the diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purpose of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

Program participation.

"(9) An operator of a farm desiring to participate in the program conducted under paragraph (8) of this subsection shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary may, by mutual agreement with the producers on the farm, terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(10) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

"(11) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(12) If the failure of a producer to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

Program deadlines or other requirements.
16 USC 590h.
97 STAT. 499

Regulations.

"(13) The Secretary may issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

"(14) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

16 USC 590h.

"(15) The provisions of subsection 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments made under this subsection.

"(16) Notwithstanding any other provision of law, compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans or payments under this subsection.

15 USC 714 note.

"(17) In order to encourage and assist producers in the orderly ginning and marketing of their extra long staple cotton production, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act.

"(18) References made in sections 402, 403, 406, 407, and 416 to the terms 'support price', 'level of support', and 'level of price support' shall be considered to apply as well to the level of loans for extra long staple cotton under this subsection; and references to the terms 'price support', 'price support operations', and 'price support program' in such sections and in section 401(a) shall be considered as applying as well to the loan operations for extra long staple cotton under this subsection.".

SEC. 5. Section 407 of the Agricultural Act of 1949, as amended, is amended by adding at the end thereof the following: "Notwithstanding any other provision of law, beginning upon the enactment of the Extra Long Staple Cotton Act of 1983, the Commodity Credit Corporation may sell extra long staple cotton for unrestricted use at such price levels as the Secretary determines appropriate to maintain and expand export and domestic markets for such cotton.".

TITLE I—DAIRY

Dairy Production Stabilization Act of 1983.
7 USC 1421 note.

SHORT TITLE

SEC. 101. This title may be cited as the "Dairy Production Stabilization Act of 1983".

Subtitle A—Dairy Stabilization Program

DAIRY PRODUCTION STABILIZATION

SEC. 102. (a) Section 201(d) of the Agricultural Act of 1949 (7 U.S.C. 1446(d)) is amended to read as follows:

"(d) Notwithstanding any other provision of law—

Supra.

"(1)(A) Effective for the period beginning with the date of enactment of the Dairy Production Stabilization Act of 1983 and ending on the last day of the month of enactment of such Act, the price of milk shall be supported at a rate equivalent to $13.10 per hundredweight for milk containing 3.67 per centum milkfat.

"(B) Effective for the period beginning on the first day of the first calendar month following the date of enactment of the Dairy Production Stabilization Act of 1983 and ending on September 30, 1985, the price of milk shall be supported at a rate equivalent to $12.60 per hundredweight for milk containing 3.67 per centum milkfat, except that—

"(i) on April 1, 1985, if the Secretary estimates that for the twelve-month period beginning on such date net price support purchases of milk or the products of milk would be in excess of six billion pounds milk equivalent, the Secretary may reduce the price support rate in effect on such date in the amount of 50 cents per hundredweight; and

"(ii) on July 1, 1985—

"(I) if the Secretary estimates that for the twelve-month period beginning on such date net price support purchases of milk or the products of milk would be in excess of five billion pounds milk equivalent, the Secretary may reduce the price support rate in effect on such date in the amount of 50 cents per hundredweight; or

97 STAT. 1129

"(II) if the Secretary estimates that for the twelve-month period beginning on such date net price support purchases of milk or the products of milk would be five billion pounds milk equivalent or less and if the Secretary determines it necessary in order to assure an adequate supply of pure and wholesome milk to meet current needs, the Secretary may increase the price support rate in effect on such date in an amount not less than 50 cents per hundredweight.

"(C) The price of milk shall be supported through the purchase of milk and the products of milk.

"(2)(A)(i) Effective for the period beginning with the first day of the first calendar month following the date of enactment of the Dairy Production Stabilization Act of 1983 and ending on March 31, 1985, to encourage the adjustment of milk production to levels consistent with the national demand for milk and the products of milk, the Secretary shall provide for a reduction of 50 cents per hundredweight to be made in the price received on all milk produced in the United States and marketed by producers for commercial use.

Ante, p. 1128.

"(ii) Effective for the period beginning with the date of enactment of the Dairy Production Stabilization Act of 1983 and ending on the last day of the month of enactment of such Act, the provisions of paragraphs (2) through (7) of subsection (d) of this section, as in effect on the day immediately prior to the date of enactment of the Dairy Production Stabilization Act of 1983, shall be applicable to all milk produced in the United States and marketed by producers for commercial use. Enactment of the Dairy Production Stabilization Act of 1983 shall not affect in any manner the collection or enforcement of any deduction from the price of milk previously implemented by the Secretary under this subsection as in effect for any milk marketed for commercial use prior to the effective date of the reduction provided for in this paragraph, as added by section 102(a) of the Dairy Production Stabilization Act of 1983.

"(B) The funds represented by the reduction in the price required to be applied to the marketings of milk by a producer under subparagraph (A) shall be collected and remitted to the Commodity Credit Corporation, at such time and in such manner as prescribed by the Secretary, by each person making payment to a producer for milk purchased from the producer, except that in the case of a producer who markets milk of the producer's own production directly to consumers, such funds shall be remitted directly to the Corporation by the producer.

Commodity Credit Corporation, collection of funds.

"(C) To the extent that funds collected under this paragraph are inadequate to make the payments to producers who reduce marketings under paragraph (3), such payments shall be made using funds otherwise available to the Corporation. The funds remitted to the Corporation under this paragraph shall be considered as included in the payments to a producer of milk for purposes of the minimum price provisions of the Agricultural Adjustment Act of 1933, as reenacted and amended by the Agricultural Marketing Agreement Act of 1937.

7 USC 601 note.
7 USC 674.

"(3)(A) The Secretary shall, not later than January 1, 1984, provide for a milk diversion program under which the Secretary shall offer to enter into a contract, at any time up to February 1, 1984, with any producer of milk in the United States for the purpose of reducing the quantity of milk marketed by the producer for commercial use during the fifteen-month period beginning on January 1, 1984. Each producer of milk in the United States seeking to enter into a contract for diversion payments under this paragraph shall, prior to entering into such contract, provide the Secretary with a plan that (i) describes the manner in which the producer intends to achieve the reduction in milk marketings that would be required under such contract, and (ii) includes an estimate by the producer of the amount of such reduction which the producer intends to achieve through increased slaughter of dairy cattle (including the approximate number of dairy cattle that will be sold for slaughter during each month of the contract). In setting the terms and conditions of such contracts, the Secretary shall take into account any adverse impact of the reductions in milk production on beef, pork, and poultry producers in the United States and shall take all feasible steps to minimize such impact.

Milk diversion program.
Contract offer.

97 STAT. 1130

Milk reduction plan, submittal to Secretary.

Contract requirements.

"(B) Each such contract shall require that—

"(i) the producer shall reduce the quantity of milk marketed for commercial use in an amount equal to a percentage specified by the producer, but not less than 5 per centum nor more than 30 per centum, of the quantity of milk marketed by such producer for commercial use during the marketing history period described in subparagraph (F);

"(ii) any production capacity of a facility that becomes available for use because a producer reduces milk production in order to comply with the contract shall not be used by the producer, or made available by the producer for use by any other person, for the production of milk;

Ante, p. 1128.

"(iii) any dairy cattle that would or could have been used by the producer for the production of milk if the producer had not entered into and complied with such contract shall not have been sold, leased, or otherwise transferred to another person after November 8, 1983, except as permitted by the Secretary up to the date of enactment of the Dairy Production Stabilization Act of 1983 in order to further the purposes of this Act, or unless such cattle are sold for slaughter or sold or transferred to another producer with respect to whom there is in effect a contract entered into under this subsection, except that the Secretary may, to the extent practicable and to the extent deemed consistent with the goals of the diversion program, permit the sale of registered, purebred cattle for breeding purposes subject to such terms and conditions as the Secretary may prescribe based on a history of such sales by the producer or the sale or transfer of any dairy cattle if the Secretary determines that such sale or transfer does not result in adversely affecting the purpose of the program; and

Payment.

"(iv) the producer shall repay to the Secretary the entire payment received under this paragraph, including simple interest payable at a rate prescribed by the Secretary which shall, to the extent practicable, reflect the cost to the Corporation of its borrowings from the United States Treasury, commencing on the date payment is first received under this paragraph, if the producer fails to comply with such contract.

97 STAT. 1131

"(C) Except as provided in subparagraph (D), the Secretary shall pay to a producer who complies with a contract, entered into under this paragraph, an amount equal to the product of $10 per hundredweight and the amount, measured in hundredweights, by which the quantity of milk marketed by such producer for commercial use during the period specified in such contract is less than the quantity of milk marketed by such producer for commercial use during the marketing history period.

Payment restrictions.

"(D) No payment may be made under subparagraph (C) to a producer with respect to—

"(i) any reduction in the quantity of milk marketed by the producer for commercial use that exceeds the lesser of 30 per centum of the aggregate quantity of milk marketed by the producer for commercial use during the producer's marketing history period, or the sum of—

"(I) the reduction in the quantity of milk marketed for commercial use required under the provisions of the contract the producer has entered into under this paragraph, after any adjustment by the Secretary under subparagraph (E); and

"(II) 3 per centum of the quantity of milk marketed by the producer for commercial use during such producer's marketing history period;

"(ii) any reduction in the quantity of milk marketed by the producer for commercial use if such reduction is less than the larger of 5 per centum of the aggregate quantity of milk marketed by the producer for commercial use during the producer's marketing history period, or the difference between—

"(I) the reduction in the quantity of milk marketed for commercial use required under the provisions of the contract the producer has entered into under this paragraph, after any adjustment by the Secretary under subparagraph (E); and

"(II) 3 per centum of the quantity of milk marketed by the producer for commercial use during such producer's marketing history period;

"(iii) except as provided in subparagraph (H), any reduction in the quantity of milk marketed for commercial use by a producer who, as determined by the Secretary, was not actively engaged in the production of milk for commercial use as of the date of enactment of the Dairy Production Stabilization Act of 1983; and

Ante, p. 1128.

"(iv) any reduction in the quantity of milk marketed for commercial use by a producer who violates any requirement specified in this paragraph.

Contract modification.

"(E) The Secretary may, in accordance with such rules or procedures as prescribed by the Secretary, modify contracts entered into under this paragraph if the Secretary determines that, as a result of contracts entered into under this paragraph, (i) there would be an excessive reduction in the level of milk production in the United States, or (ii) there has been a substantial hardship to producers of beef cattle, dairy cattle, hogs, or poultry sold for slaughter. If, under the provisions of clause (ii), the Secretary should specify a reduction in marketings in any quarter that is less than the percentage specified in the contract, such modification shall not be so great as to require the producer to make a reduction in excess of 150 per centum of the reduction required by the contract in any succeeding quarter: *Provided*, That after making any adjustments in milk marketed for commercial use in any period of the contract, except to the extent required by the foregoing provisions of this sentence, the aggregate reduction in milk marketed for commercial use for the entire diversion period must continue to be at least equal to the total reduction required by the contract. In the event of a modification, under clause (i) of this subparagraph, the Secretary may reduce the required reduction among all contracts on such basis as the Secretary determines will serve to reduce future dairy surpluses. In no event shall any reduction under this paragraph be apportioned on the basis of geographic region or area.

97 STAT. 1132

Diversion payments.

Marketing history.

"(F) Any producer of milk in the United States seeking to enter into a contract for diversion payments under this paragraph shall provide the Secretary with evidence of such producer's marketing history. The marketing history shall be the marketings of milk by such producer for commercial use during calendar year 1982 (with production during the January through March quarter to be counted by the Secretary as corresponding to both the first and the last quarters of the fifteen-month diversion contract) or, at the option of the producer, the average marketings of milk by the producer during calendar years 1981 and 1982 (with production during the January through March quarter of each such year to be counted by the Secretary as corresponding to both the first and last quarters of the fifteen-month diversion contract). The producer's marketing history may be adjusted as the Secretary determines necessary to correct for abnormally low production resulting from a natural disaster or other condition beyond the control of the producer or such other factors as the Secretary determines necessary to provide a fair and equitable marketing history.

"(G) No marketing history shall be assigned to any producer who commenced marketing of milk after December 31, 1982, except as provided in subparagraph (H).

"(H) A producer's marketing history established under this paragraph shall not be transferable to any other person, unless the entire milk production facility used by the producer to produce milk for commercial use during the marketing history period and the producer's entire dairy herd were transferred by reason of the death of the producer, by reason of a gift from the producer, or to a member or members of the family of the producer. The term 'member of the family of the producer' means (i) an ancestor of the producer, (ii) the spouse of the producer, (iii) a lineal descendant of the producer, or the producer's spouse, or a parent of the producer, or (iv) the spouse of any such lineal descendant.

"Member of the family of the producer."

"(I) Eligibility for diversion payments shall be determined on the basis of the marketing history provided for in subparagraph (F).

"(J)(i) Producers eligible for diversion payments shall apply for such payments at the end of each quarter. Payment may be made to any producer who can establish that marketings of milk by such producer for commercial use have been reduced from the level of marketings during the corresponding period of the marketing history period in an amount as specified by the Secretary for each quarter in the contract: *Provided*, That the aggregate quantity of such reductions for the entire diversion period must be at least equal to the total reduction required by the contract. Prior to approving such payment, the Secretary shall require evidence that such reduction in marketings has taken place. As part of such evidence, the producer shall certify, in a form specified by the Secretary, that such reduction is a net decrease in marketings of milk for commercial use and has not been offset by expansion of production in other production facilities in which the producer has an interest, or by transfer of partial interest in the production facility, or by employment of such other scheme or device to qualify for payment for which such producer would otherwise not be eligible.

97 STAT. 1133

Certification of reduction.

"(ii) Payments made under this paragraph during the contract period shall be considered preliminary settlements for reductions in marketings. A final settlement shall be made following the end of the contract period and shall be based on the volume of marketings for the entire contract period. If, based on total marketings for the contract period, it is determined that preliminary settlements have resulted in overpayments to the producer, the Secretary shall recover such overpayments from such producer.

Settlement.

Overpayment recovery.

"(K) Application for payment shall be made by producers through the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act.

16 USC 590h.

Contract assignment.

"(L) A producer may assign a contract entered into under this paragraph only if—

"(i) the producer's interest in the entire milk production facility and the entire dairy herd used by the producer to produce milk for commercial marketings have been transferred as a unit to the person to whom the assignment is to be made;

"(ii) the assignee is a person to whom the producer's marketing history may be transferred under subparagraph (H);

"(iii) the producer and the assignee agree in writing that the assignee shall succeed to all rights and liabilities of the producer under the contract; and

"(iv) a copy of such writing is submitted to the Secretary before the transfer occurs.

"(M) A contract entered into under this paragraph by a producer who by reason of death cannot perform or assign such contract may be performed or assigned, in accordance with subparagraph (L), by the estate of such producer.

"(N) If the provisions for reductions in the price received for milk marketed for commercial use as provided for in paragraph (2) are held to be invalid by any court, or the Secretary is restrained or enjoined by any court from implementing such provisions, the Secretary shall immediately suspend making any diversion payments under this paragraph for the period beginning with the date of such court action and shall resume making such payments only if such court action is overruled, stayed, or terminated.

Payment suspension.

"(O) If the Secretary determines that there has been a marked deviation in the composition of milk marketed for commercial use by a producer from that of such producer's marketings during the marketing history period, an adjustment as determined appropriate by the Secretary shall be made in the producer's diversion payments to reflect the composition of milk marketed during the marketing history period.

Payment adjustment.

97 STAT. 1134

"(4) Each producer who markets milk and each person required to make payment to the Corporation under this subsection shall keep such records and make such reports, in such manner, as the Secretary determines necessary to carry out this subsection. The Secretary may make such investigations as the Secretary deems necessary for the effective administration of this subsection or to determine whether any person subject to the provisons of this subsection has engaged or is engaged or is about to engage in any act or practice that constitutes or will constitute a violation of any provision of this subsection or regulation issued under this subsection. For the purpose of such investigation, the Secretary may administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any records that are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of records. Such court may issue an order requiring such person to appear before the Secretary to produce records or to give testimony on the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. All process in any such case may be served in the judicial district of which such person is an inhabitant or wherever such person may be found.

Records and reports.

Investigations.

U.S. courts, assistance.

"(5)(A) The district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, any provision of this subsection or any regulation issued under this subsection. Any such civil action authorized to be brought under this subsection shall be referred to the Attorney General for appropriate action. The Secretary is not required, however, to refer to the Attorney General minor violations of this subsection whenever the Secretary believes that the administration and enforcement of this subsection would be adequately served by suitable written notice or warning to any person committing such violation.

"(B) Each person (i) as to whom there is a failure to make a reduction in the price of milk received by such person as required by paragraph (2), (ii) who fails to remit to the Corporation the funds required to be collected and remitted by paragraph (2)(B), or (iii) who fails to make the reduction in marketings required by a contract under paragraph (3) shall be liable, in addition to any amount due, to a marketing penalty at a rate equal to the support price for milk in effect at the time the failure occurs on the quantity of milk as to which the failure applies. The Secretary may reduce any such marketing penalty

Penalties.

in such amount as the Secretary determines equitable in any case in which the Secretary determines that the failure was unintentional or without knowledge on the part of the person

97 STAT. 1135

concerned. Each person who knowingly violates any other provision of this subsection, or any regulation issued under this subsection, shall be liable for a civil penalty of not more than $1,000 for each such violation. Any penalty provided for under this subparagraph shall be assessed by the Secretary after notice and opportunity for a hearing.

Penalty review.

"(C) Any person against whom a penalty is assessed under subparagraph (B) may obtain review of such penalty in an appropriate district court of the United States by filing a civil action in such court not later than thirty days after such penalty is imposed. The Secretary shall promptly file in such court a certified copy of the record upon which the penalty is based. The findings of the Secretary may be set aside only if found to be unsupported by substantial evidence.

Enforcement.

"(D) The district courts of the United States shall have jurisdiction to review and enforce any penalty imposed under subparagraph (B).

"(E) The remedies provided in this paragraph shall be in addition to, and not exclusive of, other remedies that may be available.

"(F) In carrying out this subsection, the Secretary may, as the Secretary deems appropriate—

"(i) use the services of State and county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act; and

16 USC 590h.

"(ii) enter into agreements to use, on a reimbursable or nonreimbursable basis, the services of administrators of Federal milk marketing orders and State milk marketing programs.

Any such plan or project shall be directed toward the sale and marketing or use of dairy products to the end that the marketing and use of dairy products may be encouraged, expanded, improved, or made more acceptable. 97 STAT. 1138

Geographic representation.

Executive committee.

(b) The order shall provide for the establishment and appointment by the Secretary of a National Dairy Promotion and Research Board that shall consist of not less than thirty-six members. Members of the Board shall be milk producers appointed by the Secretary from nominations submitted by eligible organizations certified under section 114 of this subtitle, or, if the Secretary determines that a substantial number of milk producers are not members of, or their interests are not represented by, any such eligible organization, then from nominations made by such milk producers in the manner authorized by the Secretary. In making such appointments, the Secretary shall take into account, to the extent practicable, the geographical distribution of milk production volume throughout the United States. In determining geographic representation, whole States shall be considered as a unit. A region may be represented by more than one director and a region may be made up of more than one State. The term of appointment to the Board shall be for three years with no member serving more than two consecutive terms, except that initial appointments shall be proportionately for one-year, two-year, and three-year terms. The Board shall appoint from its members an executive committee whose membership shall equally reflect each of the different regions in the United States in which milk is produced. The executive committee shall have such duties and powers as are conferred upon it by the Board. Board members shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Board including a per diem allowance as recommended by the Board and approved by the Secretary.

Powers and duties.

(c) The order shall define the powers and duties of the Board that shall include only the powers enumerated in this section. These shall include, in addition to the powers set forth elsewhere in this section, the powers to (1) receive and evaluate, or on its own initiative develop, and budget for plans or projects to promote the use of fluid milk and dairy products as well as projects for research and nutrition education and to make recommendations to the Secretary regarding such proposals, (2) administer the order in accordance with its terms and provisions, (3) make rules and regulations to effectuate the terms and provisions of the order, (4) receive, investigate, and report to the Secretary complaints of violations of the order, and (5) recommend to the Secretary amendments to the order. The Board shall solicit, among others, research proposals that would increase the use of fluid milk and dairy products by the military and by persons in developing nations, and that would demonstrate the feasibility of converting surplus nonfat dry milk to casein for domestic and export use.

(d) The order shall provide that the Board shall develop and submit to the Secretary for approval any promotion, research, or nutrition education plan or project and that any such plan or project must be approved by the Secretary before becoming effective.

Budget approval.

(e) The order shall require the Board to submit to the Secretary for approval budgets on a fiscal period basis of its anticipated expenses and disbursements in the administration of the order, including projected costs of dairy products promotion and research projects.

Agreements.

(f) The order shall provide that the Board, with the approval of the Secretary, may enter into agreements for the development and conduct of the activities authorized under the order as specified in subsection (a) and for the payment of the cost thereof with funds collected through assessments under the order. Any such agreement shall provide that (1) the contracting party shall develop and submit to the Board a plan or project together with a budget or budgets that shall show estimated costs to be incurred for such plan or project, (2) the plan or project shall become effective upon the approval of the Secretary, and (3) the contracting party shall keep accurate records of all of its transactions, account for funds received and expended, and make periodic reports to the Board of activities conducted, and such other reports as the Secretary or the Board may require.

97 STAT. 1139

Assessments.

(g) The order shall provide that each person making payment to a producer for milk produced in the United States and purchased from the producer shall, in the manner as prescribed by the order, collect an assessment based upon the number of hundredweights of milk for commercial use handled for the account of the producer and remit the assessment to the Board. The assessment shall be used for payment of the expenses in administering the order, with provision for a reasonable reserve, and shall include those administrative costs incurred by the Department after an order has been promulgated under this subtitle. The rate of assessment prescribed by the order shall be 15 cents per hundredweight of milk for commercial use or the equivalent thereof. A milk producer or the producer's cooperative who can establish that the producer is participating in active, ongoing qualified State or regional dairy product promotion or nutrition education programs intended to increase consumption of milk and dairy products generally shall receive credit in determining the assessment due from such producer for contributions to such programs of up to 10 cents per hundredweight of milk marketed or, for the period ending six months after the date of enactment of this Act, up to the aggregate rate in effect on the date of enactment of this Act of such contributions to such programs (but not to exceed 15 cents per hundredweight of milk marketed) if such aggregate rate exceeds 10 cents per hundredweight of milk marketed. Any person marketing milk of that person's own production directly to consumers shall remit the assessment directly to the Board in the manner prescribed by the order.

Records and reports.

(h) The order shall require the Board to (1) maintain such books and records (which shall be available to the Secretary for inspection and audit) as the Secretary may prescribe, (2) prepare and submit to the Secretary, from time to time, such reports as the Secretary may prescribe, and (3) account for the receipt and disbursement of all funds entrusted to it.

Investments.

(i) The order shall provide that the Board, with the approval of the Secretary, may invest, pending disbursement under a plan or project, funds collected through assessments authorized under this subtitle only in obligations of the United States or any agency thereof, in general obligations of any State or any political subdivision thereof, in any interest-bearing account or certificate of deposit of a bank that is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States.

Governmental policy, restriction of influence.

(j) The order shall prohibit any funds collected by the Board under the order from being used in any manner for the purpose of influencing governmental policy or action except as provided by subsection (c)(5).

Records and reports.

Information, confidentiality.

Violations and penalties.

(k) The order shall require that each person receiving milk from farmers for commercial use, and any person marketing milk of that person's own production directly to consumers, maintain and make available for inspection such books and records as may be required by the order and file reports at the time, in the manner, and having the content prescribed by the order. Such information shall be made available to the Secretary as is appropriate to the administration or enforcement of this subtitle, or any order or regulation issued under this subtitle. All information so obtained shall be kept confidential by all officers and employees of the Department, and only such information so obtained as the Secretary deems relevant may be disclosed by them and then only in a suit or administrative hearing brought at the request of the Secretary, or to which the Secretary or any officer of the United States is a party, and involving the order with reference to which the information to be disclosed was obtained. Nothing in this subsection may be deemed to prohibit (1) the issuance of general statements, based upon the reports, of the number of persons subject to an order or statistical data collected therefrom, which statements do not identify the information furnished by any person, or (2) the publication, by direction of the Secretary, of the name of any person violating any order, together with a statement of the particular provisions of the order violated by such person. No information obtained under the authority of this subtitle may be made available to any agency or officer of the Federal Government for any purpose other than the implementation of this subtitle and any investigatory or enforcement action necessary for the implementation of this subtitle. Any person violating the provisions of this subsection shall, upon conviction, be subject to a fine of not more than $1,000, or to imprisonment for not more than one year, or both, and, if an officer or employee of the Board or the Department, shall be removed from office.

97 STAT. 1140

(l) The order shall provide terms and conditions, not inconsistent with the provisions of this subtitle, as necessary to effectuate the provisions of the order.

CERTIFICATION OF ORGANIZATIONS

7 USC 4505.

SEC. 114. (a) The eligibility of any organization to represent milk producers, and to participate in the making of nominations under section 113 of this subtitle shall be certified by the Secretary. The Secretary shall certify any organization that the Secretary determines meets the eligibility criteria established by the Secretary under this section and the Secretary's determination as to eligibility shall be final.

(b) Certification shall be based, in addition to other available information, on a factual report submitted by the organization, which shall contain information deemed relevant and specified by the Secretary, including, but not limited to, the following:

(1) geographic territory covered by the organization's active membership;

(2) nature and size of the organization's active membership including the proportion of the total number of active milk producers represented by the organization;

(3) evidence of stability and permanency of the organization;

(4) sources from which the organization's operating funds are derived;

(5) functions of the organization; and

(6) the organization's ability and willingness to further the aims and objectives of this subtitle.

The primary considerations in determining the eligibility of an organization shall be whether its membership consists primarily of milk producers who produce a substantial volume of milk and whether the primary or overriding interest of the organization is in the production or processing of fluid milk and dairy products and promotion of the nutritional attributes of fluid milk and dairy products.

97 STAT. 1141

REQUIREMENT OF REFERENDUM

7 USC 4506.

SEC. 115. (a) Within the sixty-day period immediately preceding September 30, 1985, the Secretary shall conduct a referendum among producers who, during a representative period (as determined by the Secretary), have been engaged in the production of milk for commercial use for the purpose of ascertaining whether the order then in effect shall be continued. Such order shall be continued only if the Secretary determines that it has been approved by not less than a majority of the producers voting in the referendum, who during a representative period (as determined by the Secretary) have been engaged in the production of milk for commercial use. If continuation of the order is not approved by a majority of the producers voting in the referendum, the Secretary shall terminate collection of assessments under the order within six months after the Secretary determines that such action is favored by a majority of the producers voting in the referendum and shall terminate the order in an orderly manner as soon as practicable after such determination.

Expenses, reimbursement.

(b) The Secretary shall be reimbursed from assessments collected by the Board for any expenses incurred by the Department in connection with the conduct of any referendum under this section and section 116, except for the salaries of Government employees.

SUSPENSION AND TERMINATION OF ORDERS

7 USC 4507.

SEC. 116. (a) After September 30, 1985, the Secretary shall, whenever the Secretary finds that any order issued under this subtitle or any provision thereof obstructs or does not tend to effectuate the declared policy of this subtitle, terminate or suspend the operation of such order or such provisions thereof.

Referendum.

(b) After September 30, 1985, the Secretary may conduct a referendum at any time, and shall hold a referendum on request of a representative group comprising 10 per centum or more of the number of producers subject to the order, to determine whether the producers favor the termination or suspension of the order. The Secretary shall suspend or terminate collection of assessments under the order within six months after the Secretary determines that suspension or termination of the order is favored by a majority of the producers voting in the referendum who, during a representative period (as determined by the Secretary), have been engaged in the production of milk for commercial use and shall terminate the order in an orderly manner as soon as practicable after such determination.

(c) The termination or suspension of any order, or any provision thereof, shall not be considered an order within the meaning of this subtitle.

COOPERATIVE ASSOCIATION REPRESENTATION

7 USC 4508.

97 STAT. 1142

SEC. 117. Whenever, under the provisions of this subtitle, the Secretary is required to determine the approval or disapproval of producers, the Secretary shall consider the approval or disapproval by any cooperative association of producers, engaged in a bona fide manner in marketing milk or the products thereof, as the approval or disapproval of the producers who are members of or under contract with such cooperative association of producers. If a cooperative association of producers elects to vote on behalf of its members, such cooperative association shall provide each producer, on whose behalf the cooperative association is expressing approval or disapproval, a description of the question presented in the referendum together with a statement of the manner in which the cooperative association intends to cast its vote on behalf of the membership. Such information shall inform the producer of procedures to follow to cast an individual ballot should the producer so choose within the period of time established by the Secretary for casting ballots. Such notification shall be made at least thirty days prior to the referendum and shall include an official ballot. The ballots shall be tabulated by the Secretary and the vote of the cooperative association shall be adjusted to reflect such individual votes.

PETITION AND REVIEW

7 USC 4509.

Hearing.

SEC. 118. (a) Any person subject to any order issued under this subtitle may file with the Secretary a petition stating that any such order or any provision of such order or any obligation imposed in connection therewith is not in accordance with law and requesting a modification thereof or an exemption therefrom. The petitioner shall thereupon be given an opportunity for a hearing on the petition, in accordance with regulations issued by the Secretary. After such hearing, the Secretary shall make a ruling on the petition, which shall be final if in accordance with law.

U.S. district courts, jurisdiction.

(b) The district courts of the United States in any district in which such person is an inhabitant or carries on business are hereby vested with jurisdiction to review such ruling, if a complaint for that purpose is filed within twenty days from the date of the entry of such ruling. Service of process in such proceedings may be had on the Secretary by delivering a copy of the complaint to the Secretary. If the court determines that such ruling is not in accordance with law, it shall remand such proceedings to the Secretary with directions either (1) to make such ruling as the court shall determine to be in accordance with law, or (2) to take such further proceedings as, in its opinion, the law requires.

ENFORCEMENT

7 USC 4510.

SEC. 119. (a) The district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, any order or regulation made or issued under this subtitle. Any civil action authorized to be brought under this subsection shall be referred to the Attorney General for appropriate action, except that the Secretary is not required to refer to the Attorney General minor violations of this subtitle whenever the Secretary believes that the administration and enforcement of this subtitle would be adequately served by suitable written notice or warning to any person committing such violation.

Violations and penalties.

97 STAT. 1143

(b) Any person who willfully violates any provision of any order issued by the Secretary under this subtitle shall be assessed a civil penalty by the Secretary of not more than $1,000 for each such violation and, in the case of a willful failure to pay, collect, or remit the assessment as required by the order, in addition to the amount due, a penalty equal to the amount of the assessment on the quantity of milk as to which the failure applies. The amount of any such penalty shall accrue to the United States and may be recovered in a civil suit brought by the United States.

(c) The remedies provided in subsections (a) and (b) of this section shall be in addition to, and not exclusive of, other remedies that may be available.

INVESTIGATIONS; POWER TO SUBPENA AND TAKE OATHS AND AFFIRMATIONS; AID OF COURTS

7 USC 4511.

SEC. 120. The Secretary may make such investigations as the Secretary deems necessary for the effective administration of this subtitle or to determine whether any person subject to the provisions of this subtitle has engaged or is about to engage in any act that constitutes or will constitute a violation of any provision of this subtitle or of any order, or rule or regulation issued under this subtitle. For the purpose of such investigation, the Secretary may administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, and require the production of any records that are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of records. The court may issue an order requiring such person to appear before the Secretary to produce records or to give testimony touching the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. Process in any such case may be served in the judicial district in which such person is an inhabitant or wherever such person may be found.

7 USC 4513.

SEC. 122. There are hereby authorized to be appropriated such funds as are necessary to carry out the provisions of this subtitle. TITLE II—TOBACCO

Tobacco Adjustment Act of 1983.

SHORT TITLE

7 USC 1421 note.

SEC. 201. This title may be cited as the "Tobacco Adjustment Act of 1983".

97 STAT. 1144

PRICE SUPPORT ADJUSTMENTS

Ante, p. 296.

SEC. 202. Effective for the 1984 and subsequent crops of tobacco, section 106 of the Agricultural Act of 1949 (7 U.S.C. 1445) is amended by adding at the end thereof the following new subsections:

"(f) Notwithstanding the foregoing provisions of this section—

"(1) For the 1984 crop of Flue-cured tobacco, the support level shall be the level in cents per pound at which the 1982 crop was supported.

"(2) For the 1985 crop of Flue-cured tobacco, the support level shall be the level in cents per pound at which the 1982 crop was supported, plus or minus, respectively, the amount by which (A) the support level for the 1985 crop, as determined under subsection (b), is greater or less than (B) the support level for the 1984 crop, as determined under subsection (b), as that difference may be adjusted by the Secretary under subsection (d) if the support level under clause (A) is greater than the support level under clause (B), except that the support level for the 1985 crop shall be the level in cents per pound at which the 1982 crop was supported if the support level as determined under subsection (b) for the 1985 crop would not be more than 5 per centum greater than the support level as determined under subsection (b) for the 1984 crop.

"(3) For the 1984 crop of any kind of tobacco (other than Flue-cured tobacco) for which marketing quotas are in effect or are not disapproved by producers and for the 1985 crop of any kind of tobacco (other than Flue-cured and Burley tobacco) for which marketing quotas are in effect or are not disapproved by producers, the Secretary shall establish the support level at such level as will not narrow the normal price support differential between Flue-cured tobacco and such other kind of tobacco. Before establishing the support level under this paragraph for any such kind of tobacco the Secretary shall publish in the Federal Register a notice of the level the Secretary proposes to establish and give an opportunity for the public to comment on the proposal. In determining the level to be established under this paragraph for a particular kind of tobacco, the Secretary shall take into consideration the cost of producing such kind of tobacco, the supply and demand conditions for such kind of tobacco, the comments received in response to the public notice of the proposal, and such other relevant factors as the Secretary determines appropriate.

Publication in Federal Register. Public comment.

"(4) For the 1985 crop of Burley tobacco and for the 1986 and each subsequent crop of any kind of tobacco for which marketing quotas are in effect or are not disapproved by producers, the support level shall be the level in cents per pound at which the immediately preceding crop was supported (or if the level for that crop was adjusted under subsection (g) the level at which such crop would have been supported without regard to any adjustment under subsection (g)), plus or minus, respectively, the amount by which (A) the support level for the crop for which the determination is being made, as determined under subsection (b), is greater or less than (B) the support level for the immediately preceding crop, as determined under subsection (b), as that difference may be adjusted by the Secretary under subsection (d) if the support level under clause (A) is greater than the support level under clause (B).

97 STAT. 1145

"(g)(1) Except as provided in paragraph (2), notwithstanding the provisions of subsections (d) and (f) and section 403, the Secretary, if requested by the board of directors of the association through which price support for Flue-cured tobacco is made available to producers, may (1) designate for any crop certain grades of Flue-cured tobacco that are eligible for price support (but representing in the aggregate not more than 25 per centum of the total quantity of the Flue-cured tobacco crop that the Secretary estimates will be produced) that the Secretary determines are of such quantity or quality as to impair their marketability, and (2) without regard to the weighted average of the support rates for eligible grades of Flue-cured tobacco determined under the proviso to the first sentence of subsection (d), further reduce the support rates for such grades to the extent the Secretary deems necessary to reflect their market value, but in no event by more than 12 per centum of the respective support rates that would otherwise be established under this section.

"(2) Any reduction in the support rates for grades of Flue-cured tobacco under this subsection shall not be considered in determining the support levels for subsequent years.".

ELIMINATION OF DOUBLE ASSESSMENT; USE OF FUND

SEC. 203. Section 106A(d) of the Agricultural Act of 1949 (7 U.S.C. 1445-1(d)) is amended by—

(1) in paragraph (2), striking out "and subsequent crops" and inserting in lieu thereof "crop only"; and

(2) in paragraph (3), inserting before the semicolon at the end thereof the following: ": *Provided,* That, notwithstanding any other provision of law, use by the association of moneys in the Fund, including interest and other earnings, for the purposes of reducing the association's outstanding indebtedness to the Corporation associated with 1982 and subsequent crops of quota tobacco and making loan advances to producers is authorized, and use of such moneys for any other purposes that will be mutually beneficial to producers who contribute to the Fund and to the Corporation, shall, if approved by the Secretary, be considered an appropriate use of the Fund".

NO NET COST TOBACCO ACCOUNT—FLUE-CURED TOBACCO

SEC. 204. Section 106B(a) of the Agricultural Act of 1949 (7 U.S.C. 1445-2(a)) is amended by—

(2) in paragraph (5), striking out "except Flue-cured tobacco".

"(a)(1) Notwithstanding any other provision of law—

97 STAT. 1146

"(ii) The Secretary shall, only with respect to the 1984 through 1986 crops of Flue-cured tobacco, permit the owner of a farm to which a Flue-cured tobacco acreage allotment or quota is assigned under this Act to lease and transfer all or any part of such allotment or quota to any other owner or operator of a farm in the same county for use in such county on a farm having a current Flue-cured tobacco acreage allotment or quota except that for the 1985 and 1986 crops such lease and transfer shall be permitted only if (except as otherwise provided in paragraph (2)(A)) the parties to the lease file a copy of the lease agreement with the county committee for the county in which the farms are located, together with a written statement certifying that none of the consideration for the lease has been or will be paid to the lessor, either directly or indirectly in any form including a loan by the lessee to the lessor, the endorsement of a note by the lessee for the lessor, or any other similar arrangement which represents the anticipated income for the lease, prior to the marketing of the tobacco produced under the lease and that the lease and transfer is otherwise in compliance with the provisions of this section. Beginning with the 1985 crop, the Secretary shall promulgate regulations establishing, insofar as is reasonably practicable, a similar requirement providing that none of the consideration for the lease of any Flue-cured tobacco

The Secretary shall also require that any seller of a Flue-cured tobacco allotment and quota grant to the buyer an option to make payment therefore in equal annual installments payable each fall for a period not to exceed five years from the year in which the sale is made. With respect to the 1987 and subsequent crops of Flue-cured tobacco, the Secretary shall not permit the lease and transfer of Flue-cured tobacco acreage allotments and quotas.

Notice; hearing.

"(B) If, after notice and opportunity for a hearing, the county committee determines that the lessee or the lessor of a Flue-cured tobacco acreage allotment or quota knowingly made a false statement in the written statement filed under subparagraph (A), (i) in the case of a false statement knowingly made by the lessee, the lease agreement for purposes of the Flue-cured tobacco marketing quota program with respect to the lessee's farm shall be considered null and void as of the date approved by the county committee or (ii) in the case of a false statement knowingly made by the lessor, the Flue-cured tobacco allotment and quota next established for the farm of the lessor shall be reduced by the percentage which the leased allotment or quota was of the total Flue-cured tobacco allotment or quota for the farm. Notice of any determination made by the county committee under the preceding provision shall be mailed as soon as practicable to the lessee or lessor involved. If the lessee or lessor is dissatisfied with such determination, the lessee or lessor may request, within fifteen days after notice of such determination is mailed, a review of such determination by a local review committee under section 363 of this Act.".
